

Identify Flood Resilience Strategies

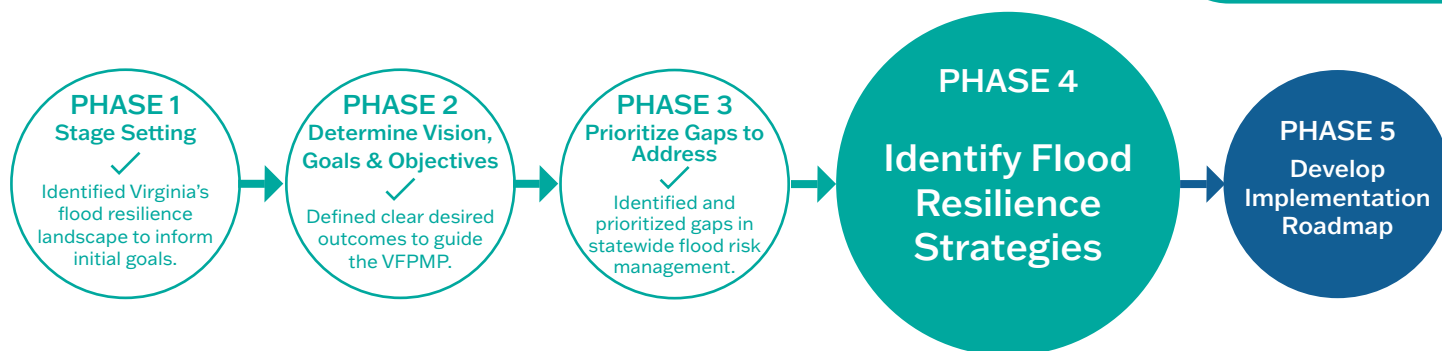

Virginia Flood Protection Master Plan

WHAT IS THE VFPMP?

All Virginians face a risk of flooding and benefit from flood resilience efforts. That is why the **Virginia Department of Conservation and Recreation (DCR)** is leading development of the Virginia Flood Protection Master Plan (VFPMP) to proactively reduce flood risks and increase the flood resilience of communities across the Commonwealth. **The VFPMP will serve as an actionable plan Virginia's government can use** to develop policies and programs that reduce current and future flood risks across the state by developing long-term, coordinated strategies and maximizing the benefits of flood resilience efforts.

the VFPMP

PHASE 4: IDENTIFY FLOOD RESILIENCE STRATEGIES

Purpose:

Identify statewide actions that can be taken within the next five years to address gaps and strengthen Virginia's flood resilience.

During the Identify Flood Resilience Strategies phase, the Plan Development Team:

Reviewed completed deliverables from phases one, two, and three to develop draft strategies that align with and address the VFPMP's vision, goals, objectives, and prioritized gaps.

Conducted interviews, in-person workshops, and virtual feedback sessions with community and state agency stakeholders to seek feedback on draft strategies.

Integrated stakeholder feedback with draft strategies to develop a list of strategies to advance flood resilience in the Commonwealth.
