

# **Strategic Principles for a Resilient Virginia**

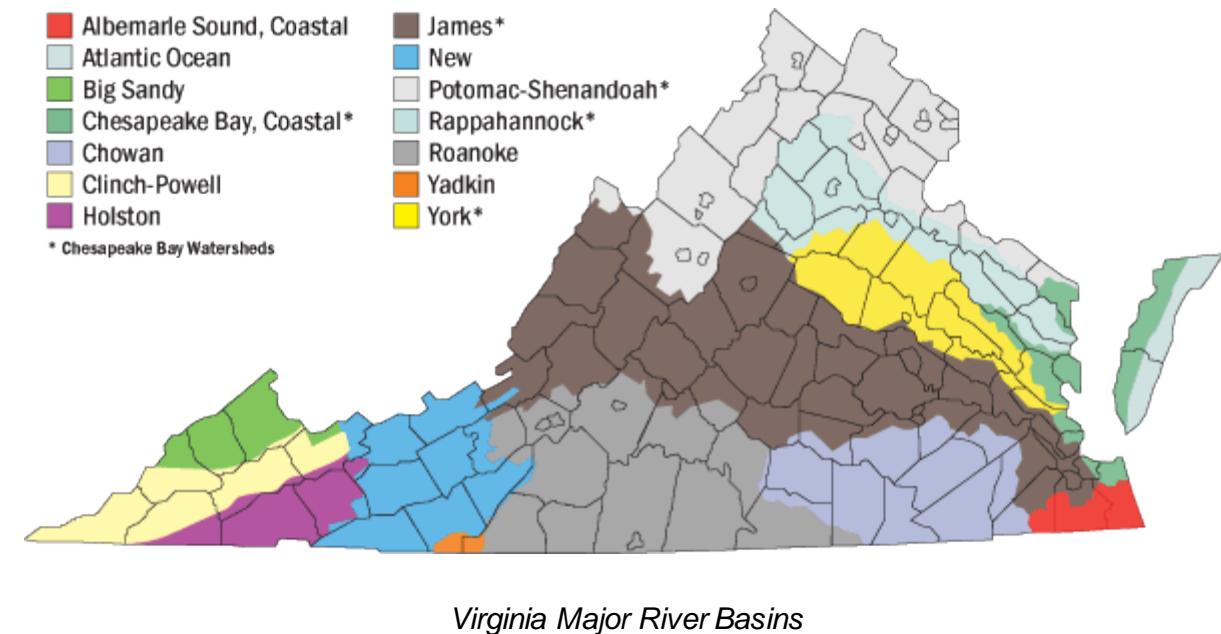

**Virginia Floodplain Management Association Annual Conference**

**November 13, 2023**

**Matthew Wells - Director, Department of Conservation and Recreation**

# About the Virginia Department of Conservation and Recreation

- The Department of Conservation and Recreation (DCR) is the state's lead natural resource conservation agency. DCR protects what Virginians care about - natural habitat, parks, clean water, dams, open space and access to the outdoors.
  - Parks and Natural Area Preserves
  - Land Conservation
  - Soil and Water Conservation
  - Dam Regulation
  - Floodplain and Resilience

# How We Approach Resilience

Principle 1: We are committed to addressing challenges relating to flooding and resiliency

Principle 2: We must address these challenges with programs that work for all impacted parts of Virginia

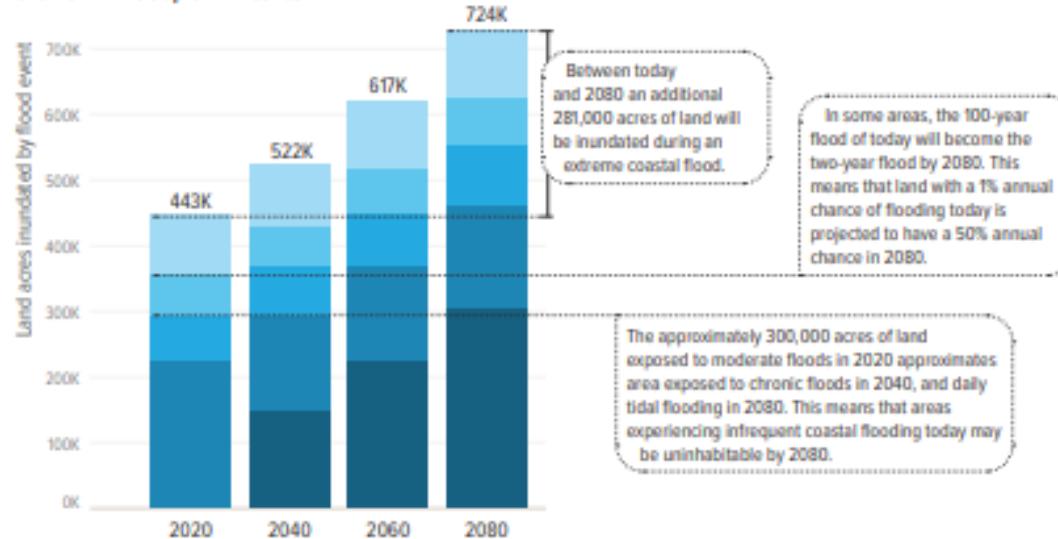

Principle 3: The programs we implement must work together as parts of comprehensive, cohesive plans

Principle 4: These programs and plans must be developed and implemented with transparency and input from the public

# Principle 1: We are committed to addressing challenges relating to flooding and resiliency

*"The impacts of flooding are felt across the commonwealth, and Governor Youngkin has ensured that resiliency and flood mitigation efforts are a priority for this administration."*  
– Travis Voyles, Chief Resilience Officer and Acting Secretary of Natural and Historic Resources

Growth in Floodplain Extents

Between 2020 and 2080...

the number of **residents** living in homes exposed to major coastal flooding is projected to grow from approximately 360,000 to 943,000, an increase of **160%**.

the number of residential, public, and commercial **buildings** exposed to an extreme coastal flood is projected to increase by almost **150%**, from 140,000 to 340,000, while annualized flood damages increase by over **930%** from \$550 million to \$5.7 billion.

the number of miles of **roadways** exposed to chronic coastal flooding is projected to increase from approximately 500 to nearly 2,800 miles, an increase of **460%**.

an estimated 170,000 acres, or **89%**, of existing **tidal wetlands** and 3,800 acres, or **38%**, of existing **dunes and beaches** may be permanently inundated, effectively lost to open water.

Reference  
Flood Event

Reference Flood Event	Annual Exceedance Probability (AEP)	Average Return Interval (Frequency)	Example Storm/Event Type
Tidal	Mean High Water	Inundated Daily	Daily High Tide
Chronic	20% AEP	5 years	Gale, Smaller Coastal Storm
Moderate	4% AEP	25 years	Tropical Storm, Nor'easter
Major	1% AEP	100 years	Strong Nor'easter, Category 2 hurricane
Extreme	0.2% AEP	500 years	Category 3+ hurricane

# Principle 1: We are committed to addressing challenges relating to flooding and resiliency

## Dam Safety

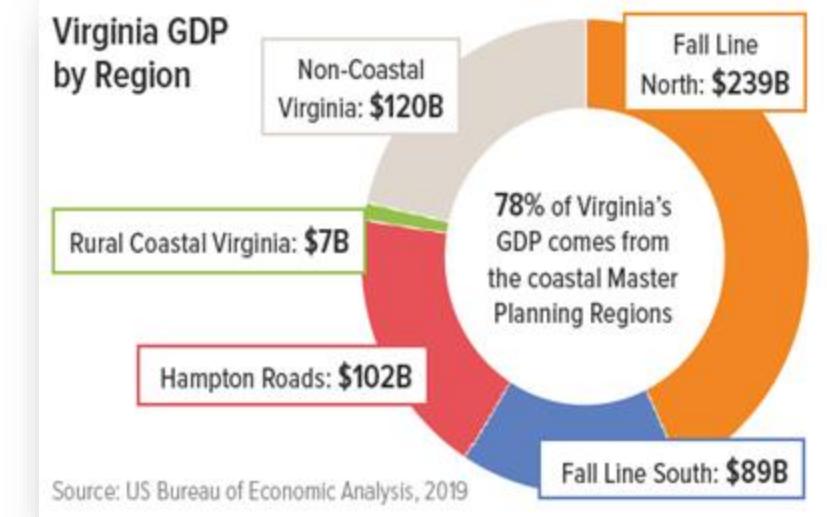

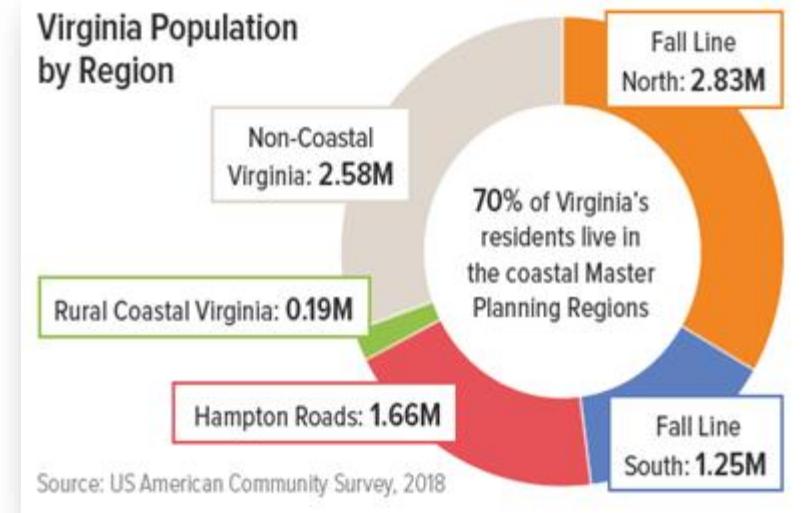

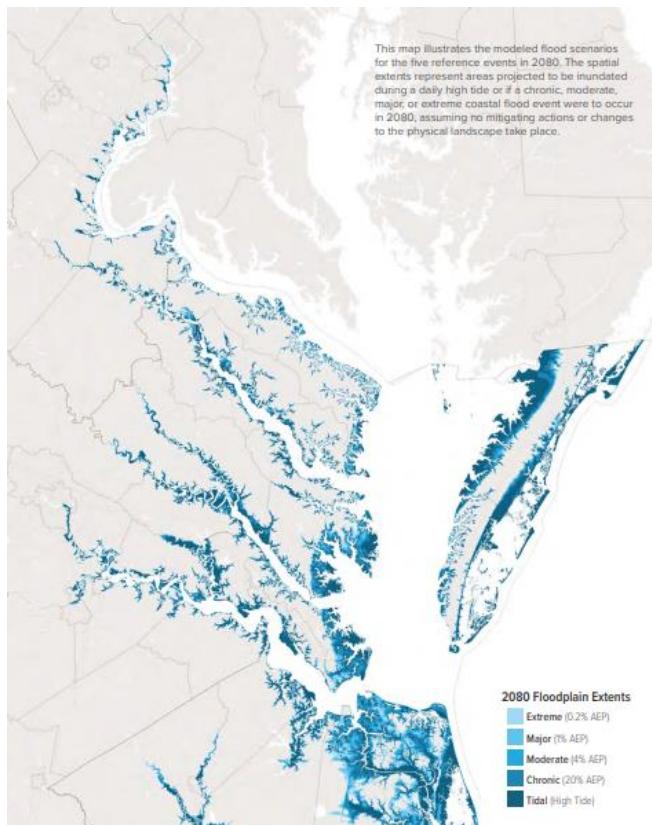

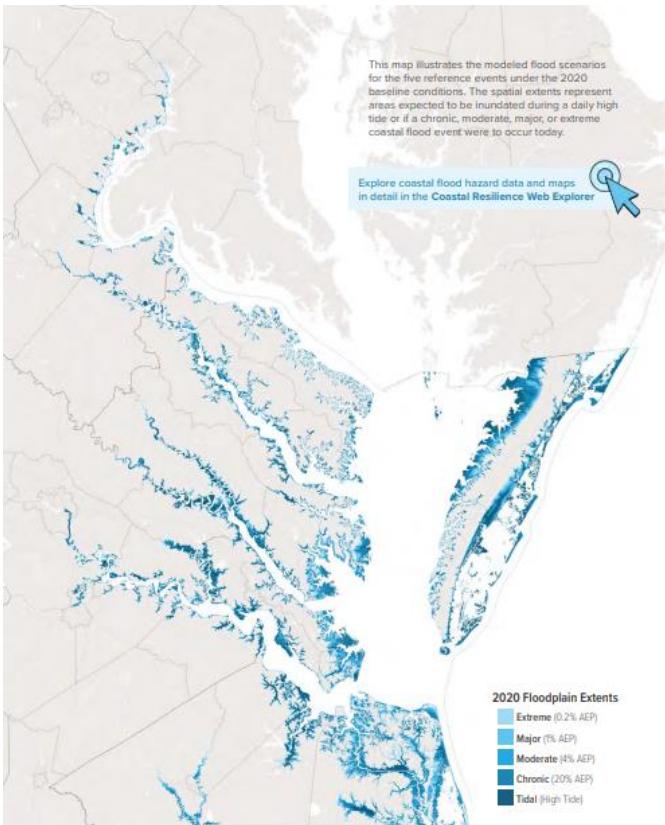

- DCR regulates over 2,500 dams across the Commonwealth through the Soil and Water Conservation Board. Over 80% of these dams are privately owned.
- Almost 400 are known to be “High Hazard”
- It is estimated nationally that up to 70% of dams are reaching the end of their useful life.
- ASDSO estimates bringing Virginia dams up to standards will cost \$5.4 billion in a 2023 report.
- A significant portion of the dam inventory have historically lacked hazard classifications, condition assessment, and/or ownership information.

Count of Regulated Dams by Ownership		
Dam Owner Type	Dam Count	Percent
Private	2,107	83%
Local Government	191	7%
Soil & Water Conservation District	105	4%
State (DWR)	75 (39)	3%
Public Utility	69	3%

Regulatory Dam Inventory		
Metric	Initial	Sep. 2023
Number of dams with unknown ownership	812	318
Number of dams of unknown hazard	1876	1,699
Number of regulated dams with 'not rated' condition assessment	1974	1714

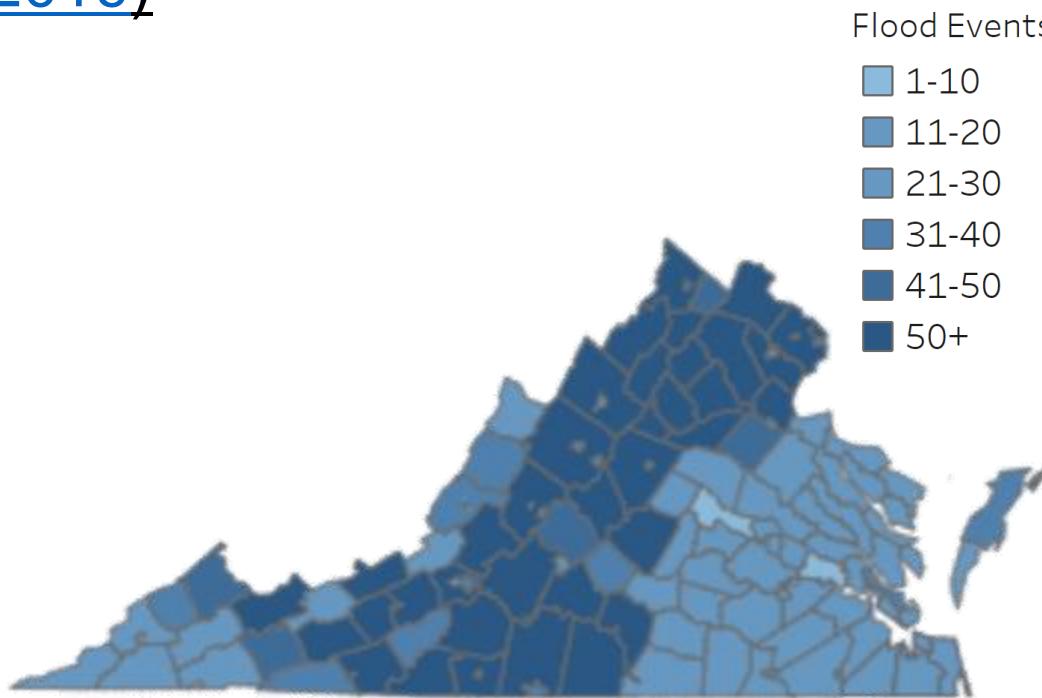

# Principle 2: We must address these challenges with programs that work for all impacted parts of Virginia

## Coastal Virginia Sea Level Rise Risk Projections

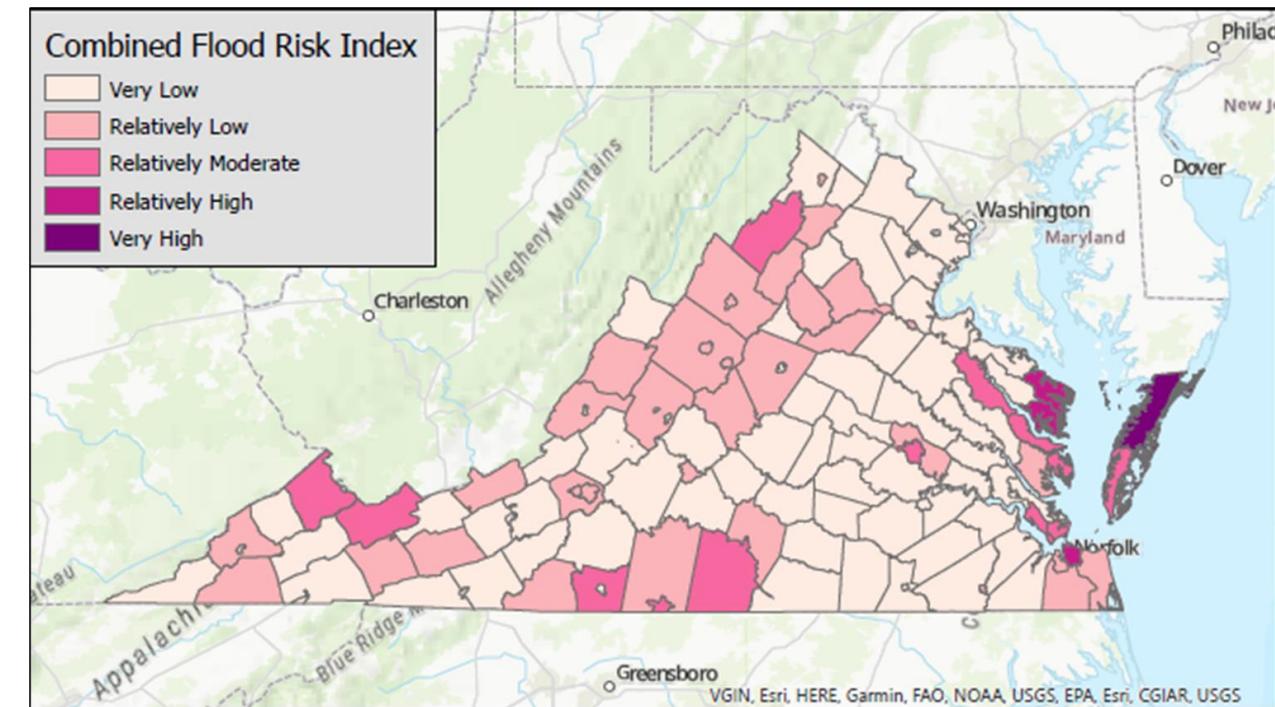

## Principle 2: We must address these challenges with programs that work for all impacted parts of Virginia

Statewide Historic Flood Risk Data (1996-  
2019)

FEMA Combined Flood Risk (2021)

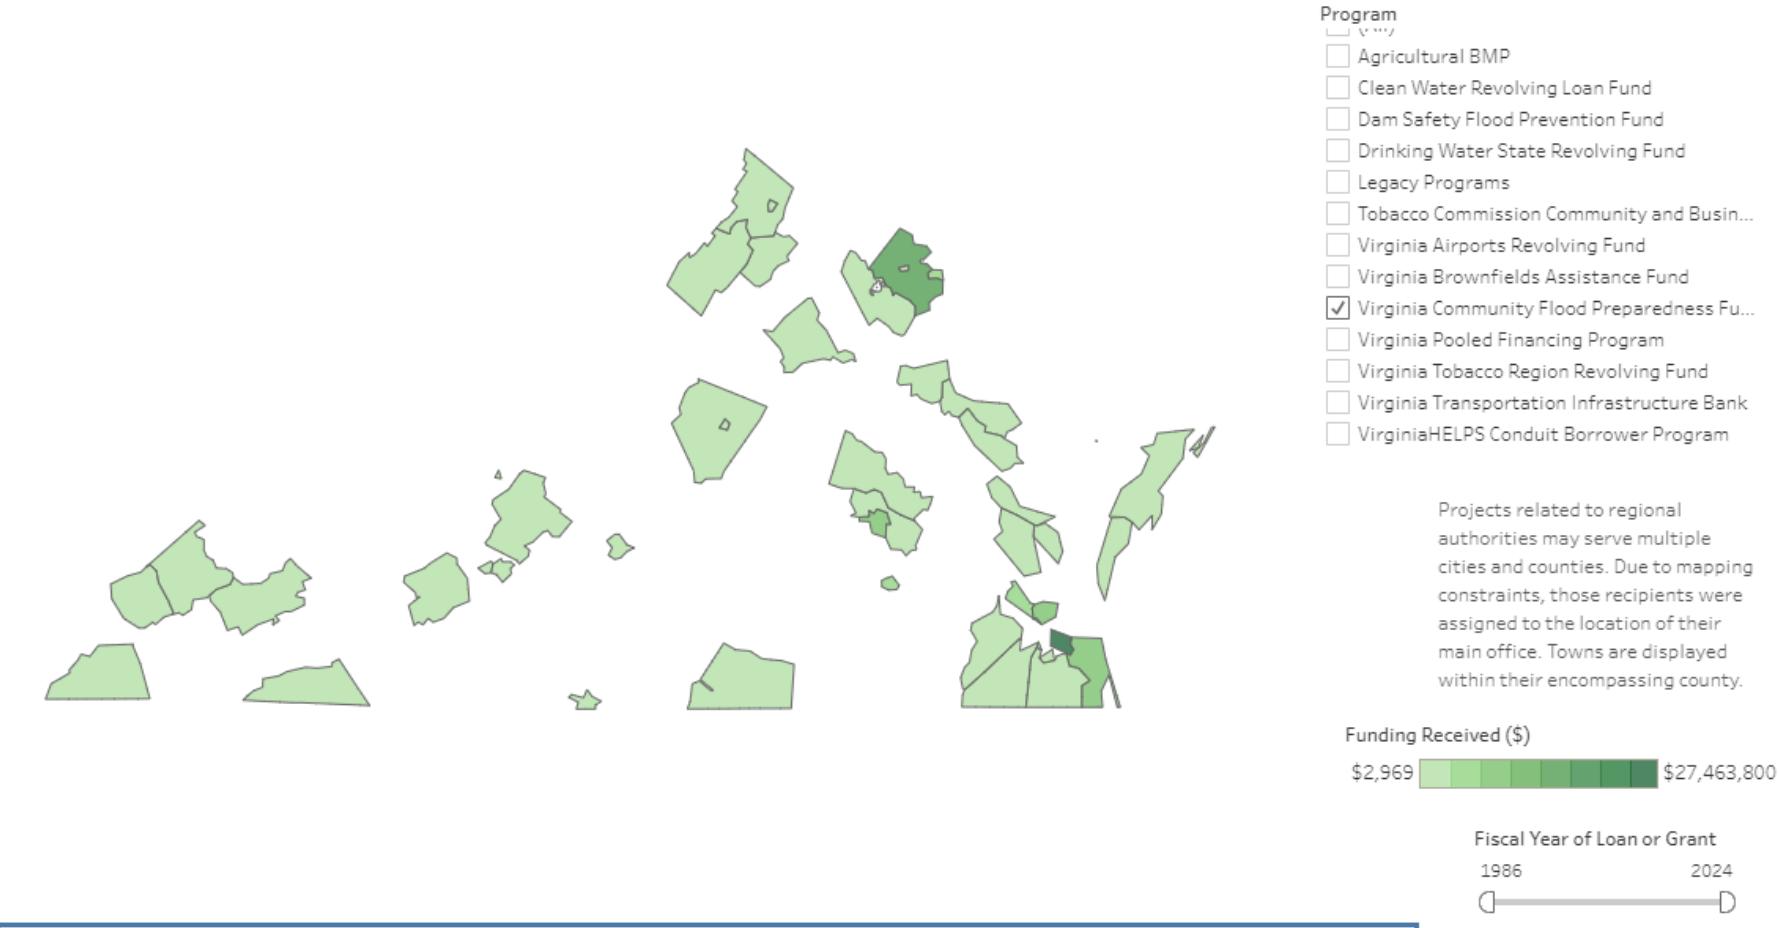

## Principle 2: Programs that work for all impacted parts of Virginia

### Community Flood Preparedness Fund

	Round 1	Round 2	Round 3	Totals
Funds Available	\$ 18,000,000	\$ 17,000,000	\$ 70,000,000	\$ 105,000,000
Number of Applications	32	37	64	133
CFPF Funds Requested	\$ 14,532,740	\$ 29,725,495	\$ 92,472,050	\$ 136,730,285
Funds Awarded	\$ 7,796,040	\$ 24,551,923	\$ 65,388,627	\$ 97,736,590
<i>Low Income Awarded</i>	\$ 3,766,515	\$ 19,759,944	\$ 42,384,643	\$ 65,911,103
<i>Non-Low Income Awarded</i>	\$ 4,029,525	\$ 4,791,979	\$ 23,003,983	\$ 31,825,487

# Principle 2: Programs that work for all impacted parts of Virginia Community Flood Preparedness Fund

# Principle 2: Programs that work for all impacted parts of Virginia

## Resilient Virginia Revolving Fund

- CFPF and RVRF – working together

- CFPF Round 4 and RVRF Round 1 Grant Manual(s) put out for public comment
- Shift to an annual cycle, combination of grants and loans
- Goal is to have programs run together and complement each other
- Both programs have tremendous flexibility for project types; both can offer grants and loans
- Generally, the CFPF is geared towards larger, community-scale projects, while the RVRF is more directed towards individual property and buildings
- CFPF prefers nature based; has 25% low-income requirement
- RVRF prefers projects that will utilize private industry and/or serve 2+ local gov'ts; has building hazard mitigation carve-out

CFPF	RVRF
<p><u>Community Scale</u></p> <ul style="list-style-type: none"><li>• Flood protection studies</li><li>• Capacity Building</li><li>• Flood Planning Activities</li><li>• Hazard mitigation projects</li><li>• Land acquisition</li><li>• Implementation of land use controls</li></ul>	<p><u>Property Scale</u></p> <ul style="list-style-type: none"><li>• Hazard mitigation of buildings</li><li>• Hazard mitigation of real property</li><li>• Home buyouts and relocation</li><li>• Loans and grants to persons for hazard mitigation and infrastructure improvement projects for resilience purposes</li><li>• Projects identified in the Virginia Flood Protection Master Plan or the Virginia Coastal Resilience Master Plan</li><li>• Support for local resilience funding programs</li></ul>

# Principle 2: Programs that work for all impacted parts of Virginia

## CFPF Round 4

Community Flood Preparedness Fund Round 4 – Total Available \$85,000,000

Closed November 12, 2023 at 11:59 p.m.

Round 4 will be the first time that the CFPF offers loans, and the first time that awards are capped.

Category	Amount	Award Type	Notes
Planning & Capacity Building, Studies, and Resilience Projects	\$50,000,000	Grants	Awards require match that varies depending on activity/project type. Reduced match for low-income geographic areas. Total awards per applicant are capped.
Resilience Projects	\$25,000,000	Loans	Below market-rate loans for resilience projects. Awards do not require match. Designed primarily to accommodate large projects that exceed grant caps.
Start-Up Funding	\$10,000,000	Loans	Short term (36 month) loans to provide up-front funding for activities funded by CFPF grants. Currently, CFPF grants are paid on a reimbursement basis, which is a limiting factor for some localities.

\* Assuming Round 4 is fully subscribed, DCR anticipates approximately \$106 million in unobligated funding will remain in the fund after the December 2023 auction.

# Principle 2: Programs that work for all impacted parts of Virginia

## RVRF Round 1

Resilient Virginia Revolving Fund Round 1 – Total Available \$18,500,000\*

Closes December 12, 2023 at 11:59 p.m.

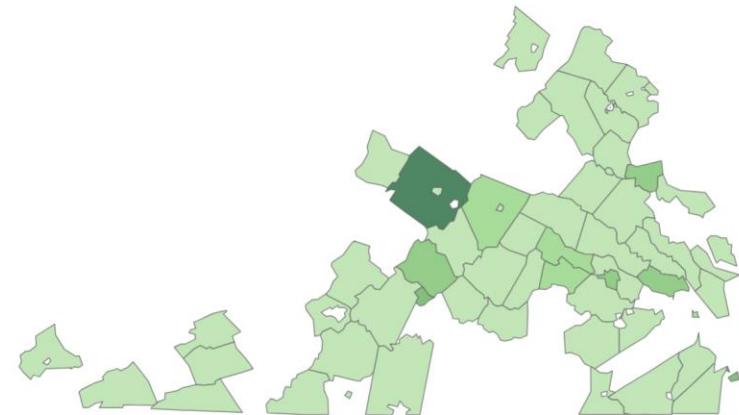

Category	Amount	Award Type	Notes
Non-federal match for federal resilience grants to localities.	\$5,000,000	Loans	Below market-rate loans for localities to use as non-federal match for resilience projects (FMA, HMA, CDBG, BRIC, etc).
Hazard Mitigation of Buildings	\$7,500,000	Loans	Below market-rate loans for projects related to the hazard mitigation of buildings. Awards are for discrete projects that localities wish to support (may be on private property). Satisfies statutory requirement that a portion of the RVRF be set aside for this purpose.
Capitalization for Local Flood Resilience Programs	\$1,000,000	Loans	Interest-only loans to localities with existing revolving funds. Providing interest-only loans allows principal to be revolved within the locality. Loans to localities may be rolled over indefinitely.
Capacity Building for Local Flood Resilience Funding Programs	\$5,000,000	Grants	Grants to localities to support the establishment of Local Flood Resilience Funding Programs. Subject to the approval of DCR, these programs could fund a range of property-scale projects.

\* Total capitalization of fund is \$25,000,000; \$5,000,000 has been set aside for FEMA STORM RLF Grant match; \$1,500,000 has been set aside for administrative costs (including support VRA loan closing costs).

# Principle 2: Programs that work for all impacted parts of Virginia Dam Safety, Flood Prevention and Protection Fund

- Virginia's **Dam Safety, Flood Prevention and Protection Assistance Fund** provides grants to local governments and private dam owners whose dams fall under state regulations. The FY23/24 budget appropriated \$21,464,294 for the Fund.

	Total Grant Round Maximum	Approved by SWCB	Funds Disbursed	Unexpended Balance	Number of Funded Projects	Number of Distinct Dams Funded
2021	\$1,000,000	\$726,039	\$476,411	\$249,628	55	34
2022	\$1,250,000	\$1,600,001	\$287,785	\$1,312,216	202	64
2023	\$5,000,000	\$2,862,541	0	\$2,862,541	113	43
2024	\$10,000,000	TBD	0	TBD	TBD	TBD
Totals	\$17,250,000	\$5,188,581	\$764,196	\$4,424,385	370	141

- DCR anticipates releasing \$10,000,000 for the 2024 DSFPPF round.

Category	Amount
Dams of regulatory size without hazard classification.	\$1,000,000
Dams of Regulatory size with <u>known</u> hazard classification.	\$2,000,000
Privately-owned, high-hazard dams.	\$7,000,000

# Principle 3: The programs we implement must work together as parts of comprehensive, cohesive plans

## Coastal Resilience Master Planning Framework

### Framework Goals

Prioritize Projects

Financing Strategy

Incorporate Climate Change Projections

Coordinate Efforts

### Framework Principles

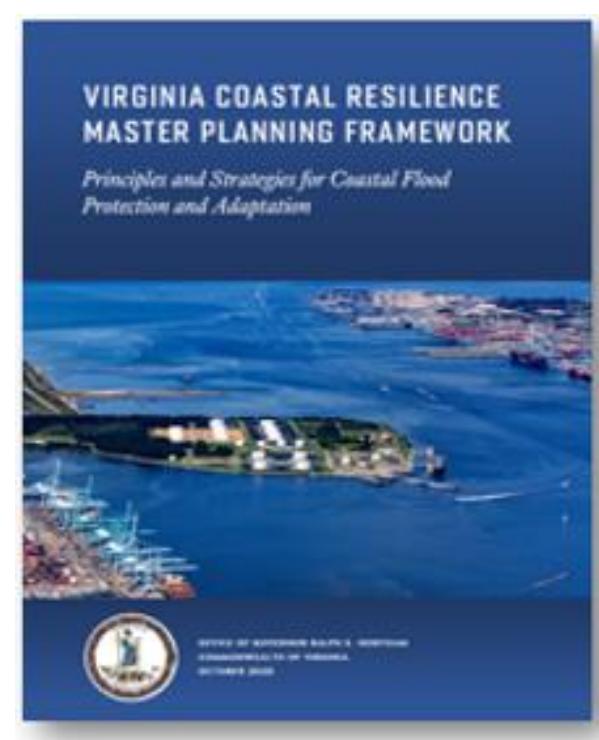

Best Available Science

Socioeconomics

Nature-Based Solutions

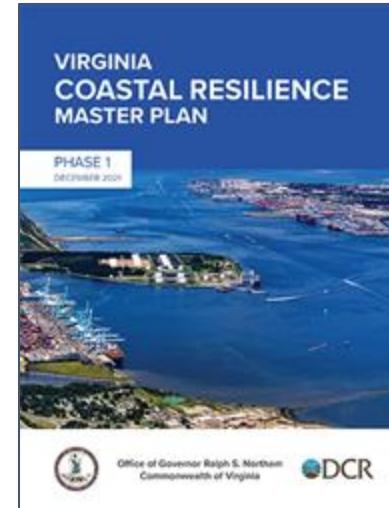

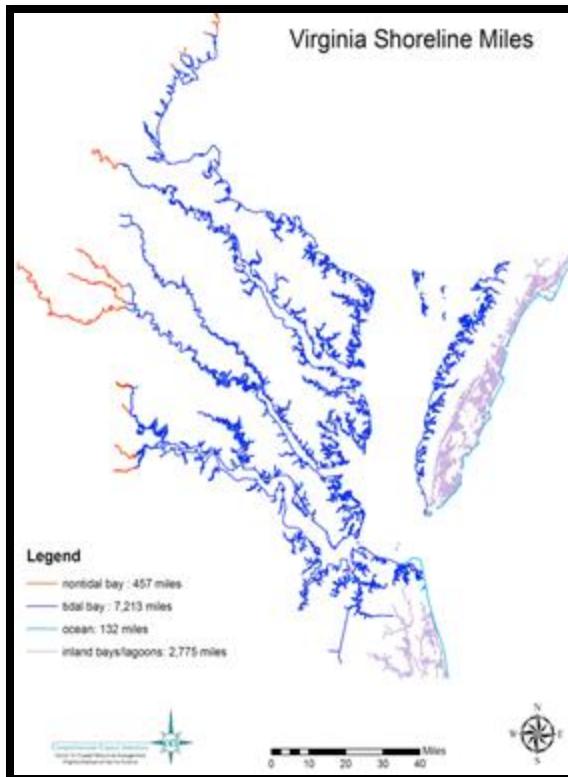

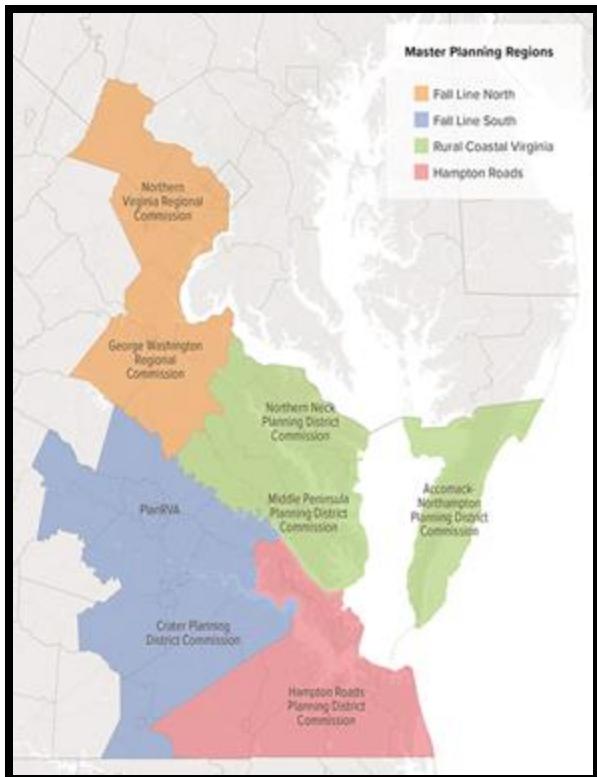

Community and Regional Scale

Cost-Effective Solutions

# Principle 3: The programs we implement must work together as parts of comprehensive, cohesive plans

## Coastal Resilience Master Plan

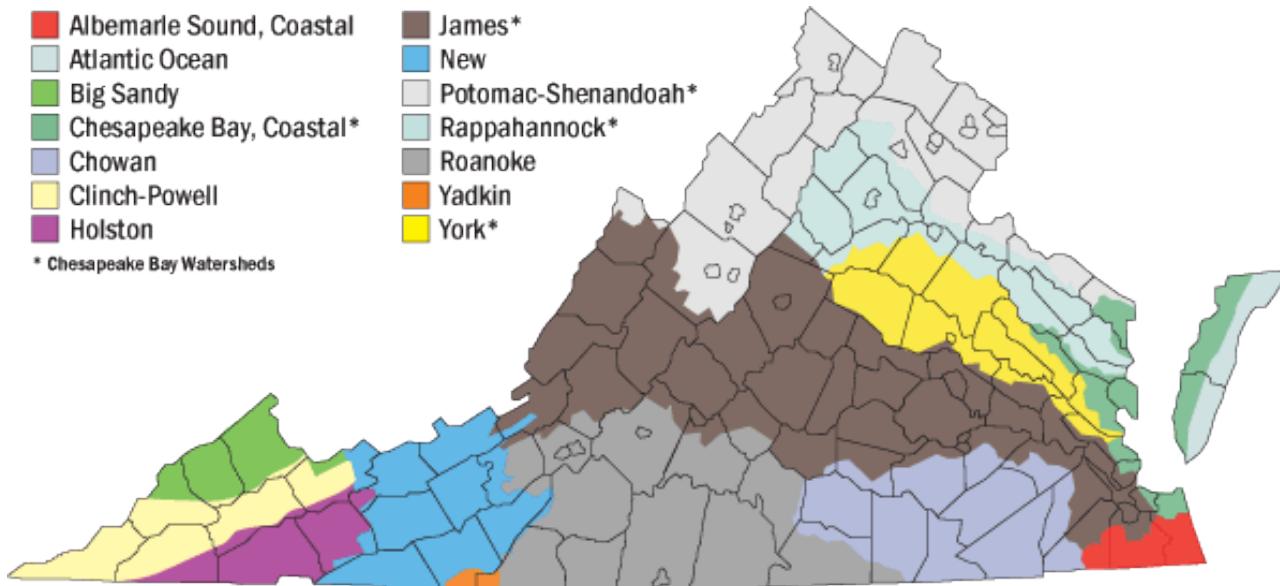

### Coastal Resilience Master Plan (CRMP) Update

- Codified by HB516 (Bulova) / SB551 (Marsden)
- Special Advisor for Coastal Adaptation and Protection, in coordination with DCR Director, shall update CRMP to incorporate all major flood hazards, including precipitation-driven flooding;
- A list of all projects considered and an update of the status of all projects previously implemented;
- A comprehensive risk assessment of critical human and natural infrastructure.
- DCR is the lead administrator and required to implement
- Due no later than December 31, 2024 and updated at least every 5 years

# Principle 3: The programs we implement must work together as parts of comprehensive, cohesive plans

## Virginia Flood Protection Master Plan

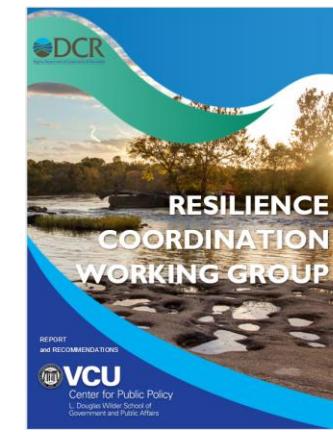

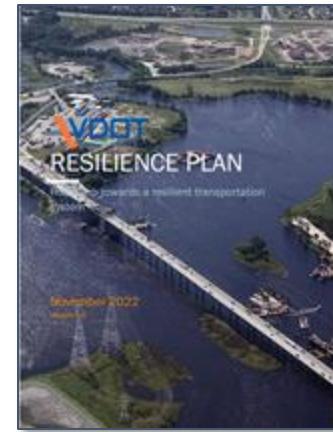

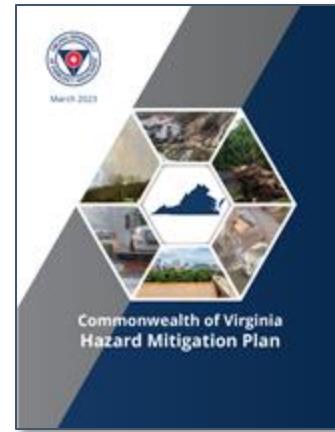

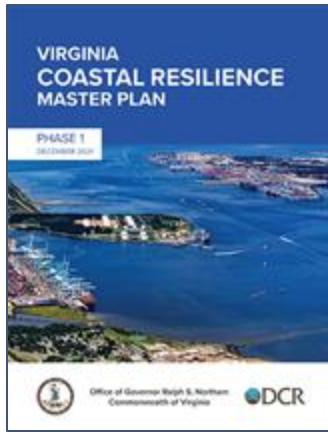

### Virginia Flood Protection Master Plan (VFPMP) Update

- Existing plan w/ requirement for update every 5 years
- Must use a watershed-based approach
- Immediate challenge is availability of types of data needed - data are more available for coastal region and CRMP
- Must integrate Coastal Resilience Master Plan
- Other requirements contained in 10.1-658
- DCR is the lead administrator and required to implement
- Due no later than Dec 31, 2026 - DCR plans to deliver Dec 2025

# Principle 3: The programs we implement must work together as parts of comprehensive, cohesive plans

## Additional Efforts

- Coastal Resilience Technical Advisory Committee
- Annual Flood Resilience Meeting
- Resilience Coordination Working Group – Recently Concluded

# Principle 3: The programs we implement must work together as parts of comprehensive, cohesive plans

## Resilience Coordination Working Group

- Virginia faces challenges related to coordinating state-level resilience planning, programs, and funding efforts, which are dispersed across multiple agencies and secretariats. Additionally, our current structure hampers our ability to capture federal dollars and does not provide localities with the support they need to address challenges at a local level.
- The Administration convened a Resilience Coordination Working Group (RCWG), comprised of a broad group 39 of stakeholders, to develop recommendations to address these challenges.

Resilience Coordination Working Group Members				
Central Shenandoah PDC (CSPDC)	Home Builders Association of Virginia (HBAV)	The Nature Conservancy (TNC)	Virginia Department of Emergency Management (VDEM)	Virginia Farm Bureau (VFB)
Chesapeake Bay Commission (CBC)	Middle Peninsula PDC (MPPDC)	University of Virginia - IEN (UVA)	Virginia Department of Environmental Quality (DEQ)	Virginia Institute of Marine Science (VIMS)
Chesapeake Bay Foundation (CBF)	Mount Rogers PDC (MRPDC)	Virginia Marine Resources Commission (VMRC)	Virginia Department of Housing and Community Development (DHCD)	Virginia Manufacturer's Association (VMA)
City of Alexandria	Old Dominion University - ICAR/CCRFR (ODU)	Virginia Agribusiness Council (VAC)	Virginia Department of the Treasury (Treasury)	Virginia PACE Authority (VPA)
Clark Nexsen	Port of Virginia	Virginia Association of Soil and Water Districts (VASWCD)	Virginia Department of Transportation (VDOT)	Virginia Resources Authority (VRA)
Cumberland Plateau PDC (CPPDC)	Secretary of Natural and Historic Resources (SNHR)	Virginia Association of Counties	Virginia Department of Energy (Energy)	Virginia Tech - CCS (VT)
Environmental Defense Foundation (EDF)	Secretary of Veterans and Defense Affairs (VADA)	Virginia Chamber of Commerce (VAChamber)	Virginia Department of Wildlife Resources (DWR)	Citizen Member
Hampton Roads PDC (HRPDC)	Soil and Water Conservation Board (SWCB)	Virginia Department of Conservation and Recreation (DCR)	Virginia Economic Development Partnership (VEDP)	

# Principle 3: The programs we implement must work together as parts of comprehensive, cohesive plans

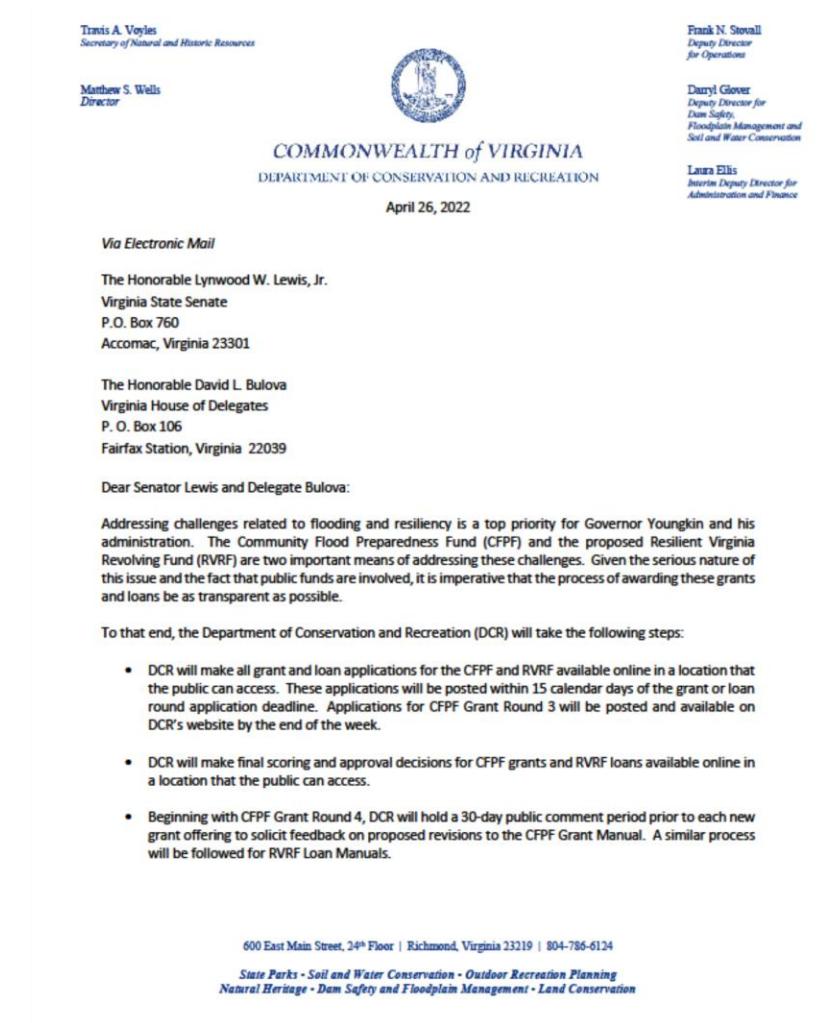

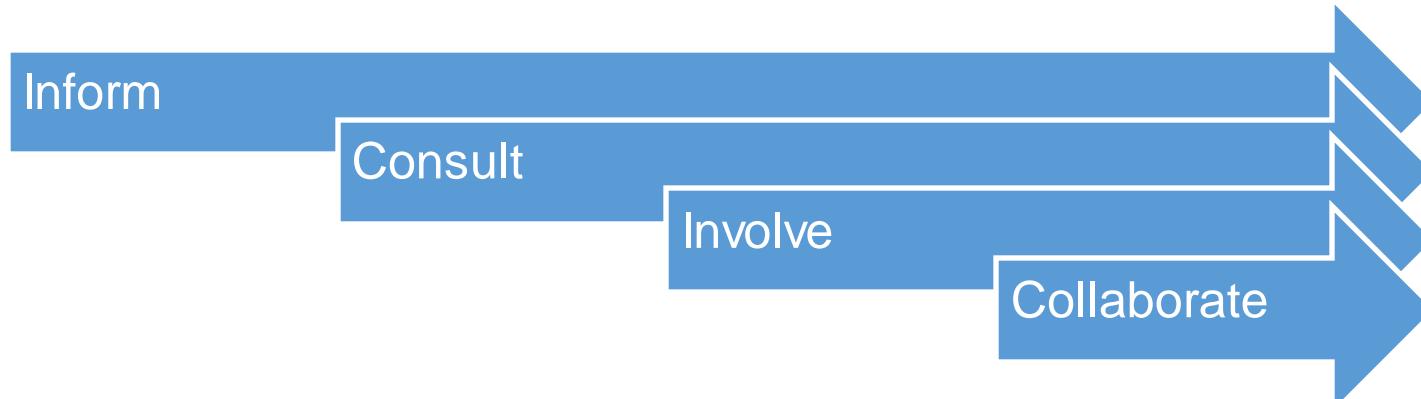

## Resilience Coordination Working Group

- The group adopted 23 recommendations with no opposition. Key recommendations are:
  - Shifting the Chief Resilience Officer (CRO) to report to the Governor in a non-cabinet role and establishing an office to support.
  - Adopting a “hub and spoke” model for resilience (as defined in § 10.1-603.28), where the CRO serves as the hub, facilitating coordination and communication between agencies (the “spokes”), who would retain their existing resilience-related responsibilities.
  - Establishing an interagency working group, headed by the CRO, to support this coordination.
  - Tasking the CRO with maximizing the availability and use of federal, state, and private funding for resilience efforts (including serving as the non-federal sponsor for USACE projects in some circumstances).
  - Supporting localities by tasking the CRO with providing knowledge-based support to local governments seeking to address resilience challenges within their communities.
  - Adopting a statutory framework to ensure oversight and transparency for the CFPF and RVRF.

§ 10.1-603.28: "Resilience" means the capability to anticipate, prepare for, respond to, and recover from significant multi-hazard threats with minimum damage to social well-being, health, the economy, and the environment.

# Principle 4: These programs and plans must be developed and implemented with transparency and input from the public

- Community Outreach and Engagement Plan
- Public Comment Periods for Coastal & Statewide Plans
- Transparency Measures for Community Flood Preparedness and Resilient Virginia Revolving Funds

# Strategic Principles for a Resilient Virginia

# Virginia's Flood Resilience Plans

Matt Dalon, DCR Office of Resilience Planning Program Manager

# Achieving a Flood Resilient Commonwealth

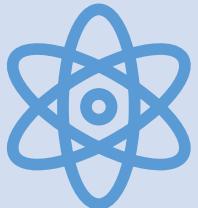

**Our charge:** to minimize loss of life, property damage, and negative impacts on the environment resulting from flooding.

**Flood Resilience:** the capability to anticipate, prepare for, respond to, and recover from flood hazards with minimal damage to social well-being, health, the economy, and the environment.

# Our Principles for Flood Resilience

## [CRMP Framework/Code of Virginia]

### Science-Based

Base decision making on the best-available science

### Equitable

Identify and address socioeconomic inequities and strive to enhance equity

### Natural

Protect and enhance natural infrastructure and utilizing nature-based approaches

### Tailored

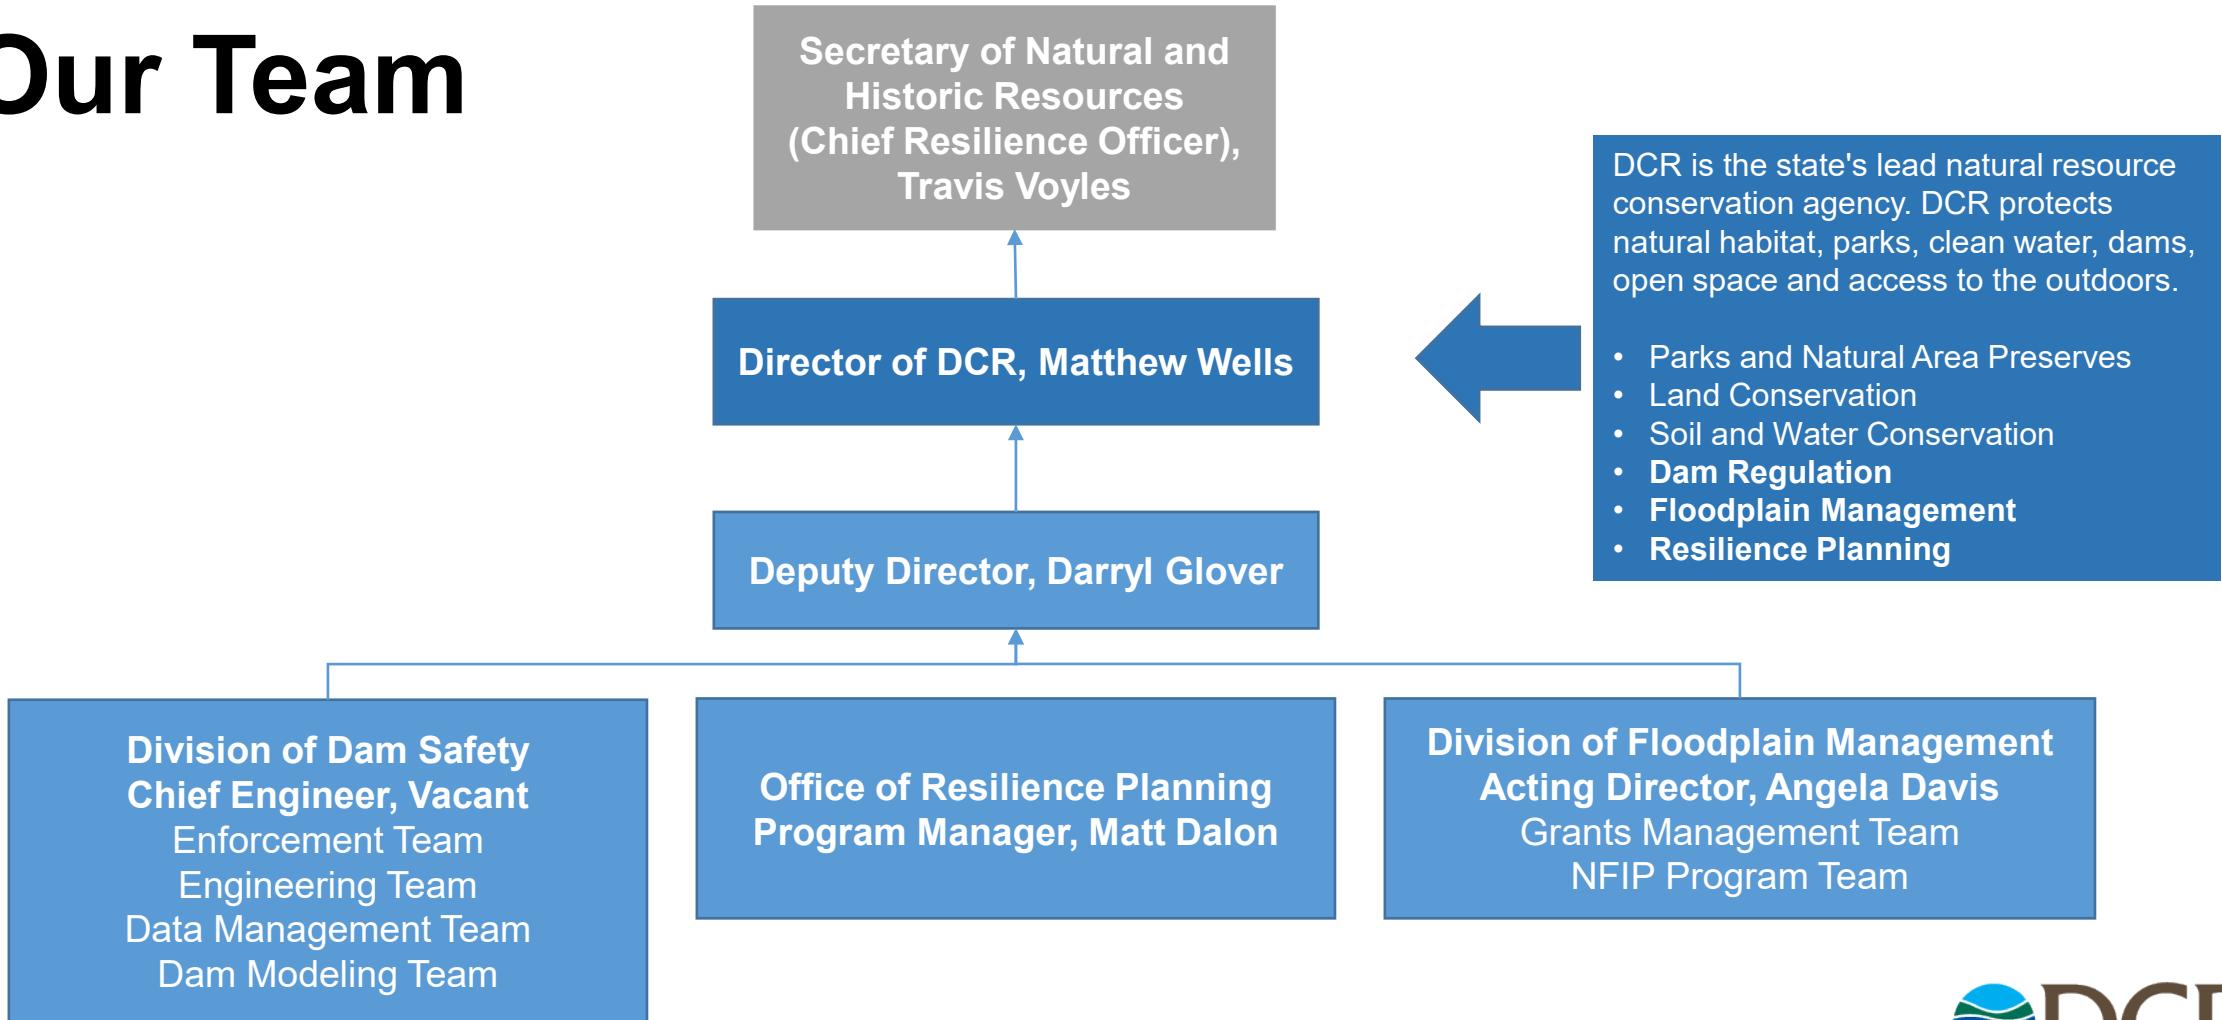

Seek region-specific approaches tailored to the needs of individual communities

### Cost-Effective

Understand fiscal realities; focus on cost-effective solutions

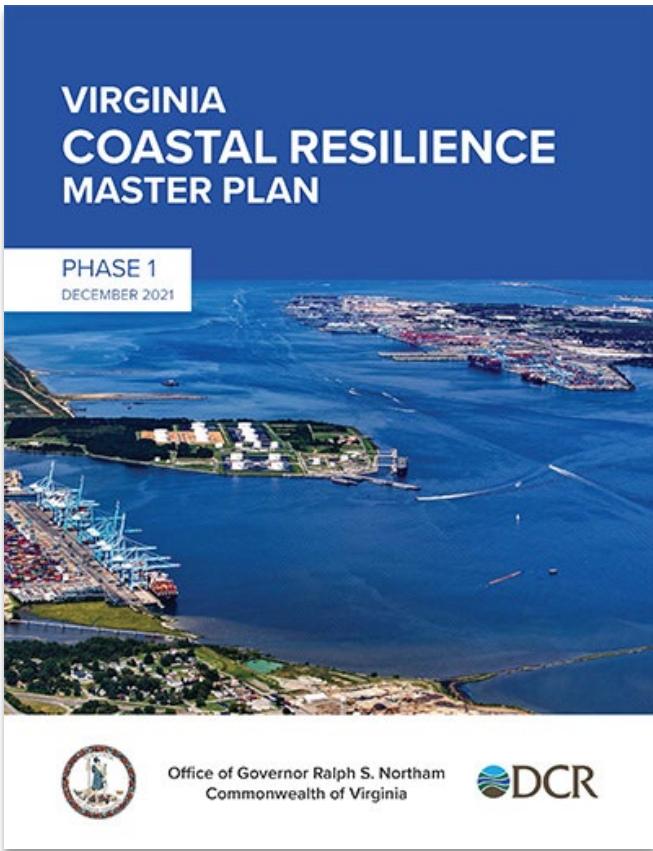

# Our Team

Virginia Department of Conservation & Recreation

# CRO and DCR's Resilience Planning Role

## Plan Development

6/27/2023

## Plan Coordination

**Virginia Flood Preparedness Coordination Meeting**

**Increasing flood resilience and preparedness across the Commonwealth through coordinated planning and action**

**June 28, 2023  
9:30 a.m.- 3:30 p.m.**

Join us for presentations showcasing ongoing resilience initiatives impacting state, regional and local governance.

## Plan Implementation Support

COMMONWEALTH OF VIRGINIA

2022 Grant Manual for the Virginia Community Flood Preparedness Fund

*2022 Grant Funding*

*Applications Due: 4 p.m., 04/08/2022*

Developed by the Department of Conservation and Recreation in cooperation with the Virginia Resources Authority

**For more information, see Code of Virginia:**

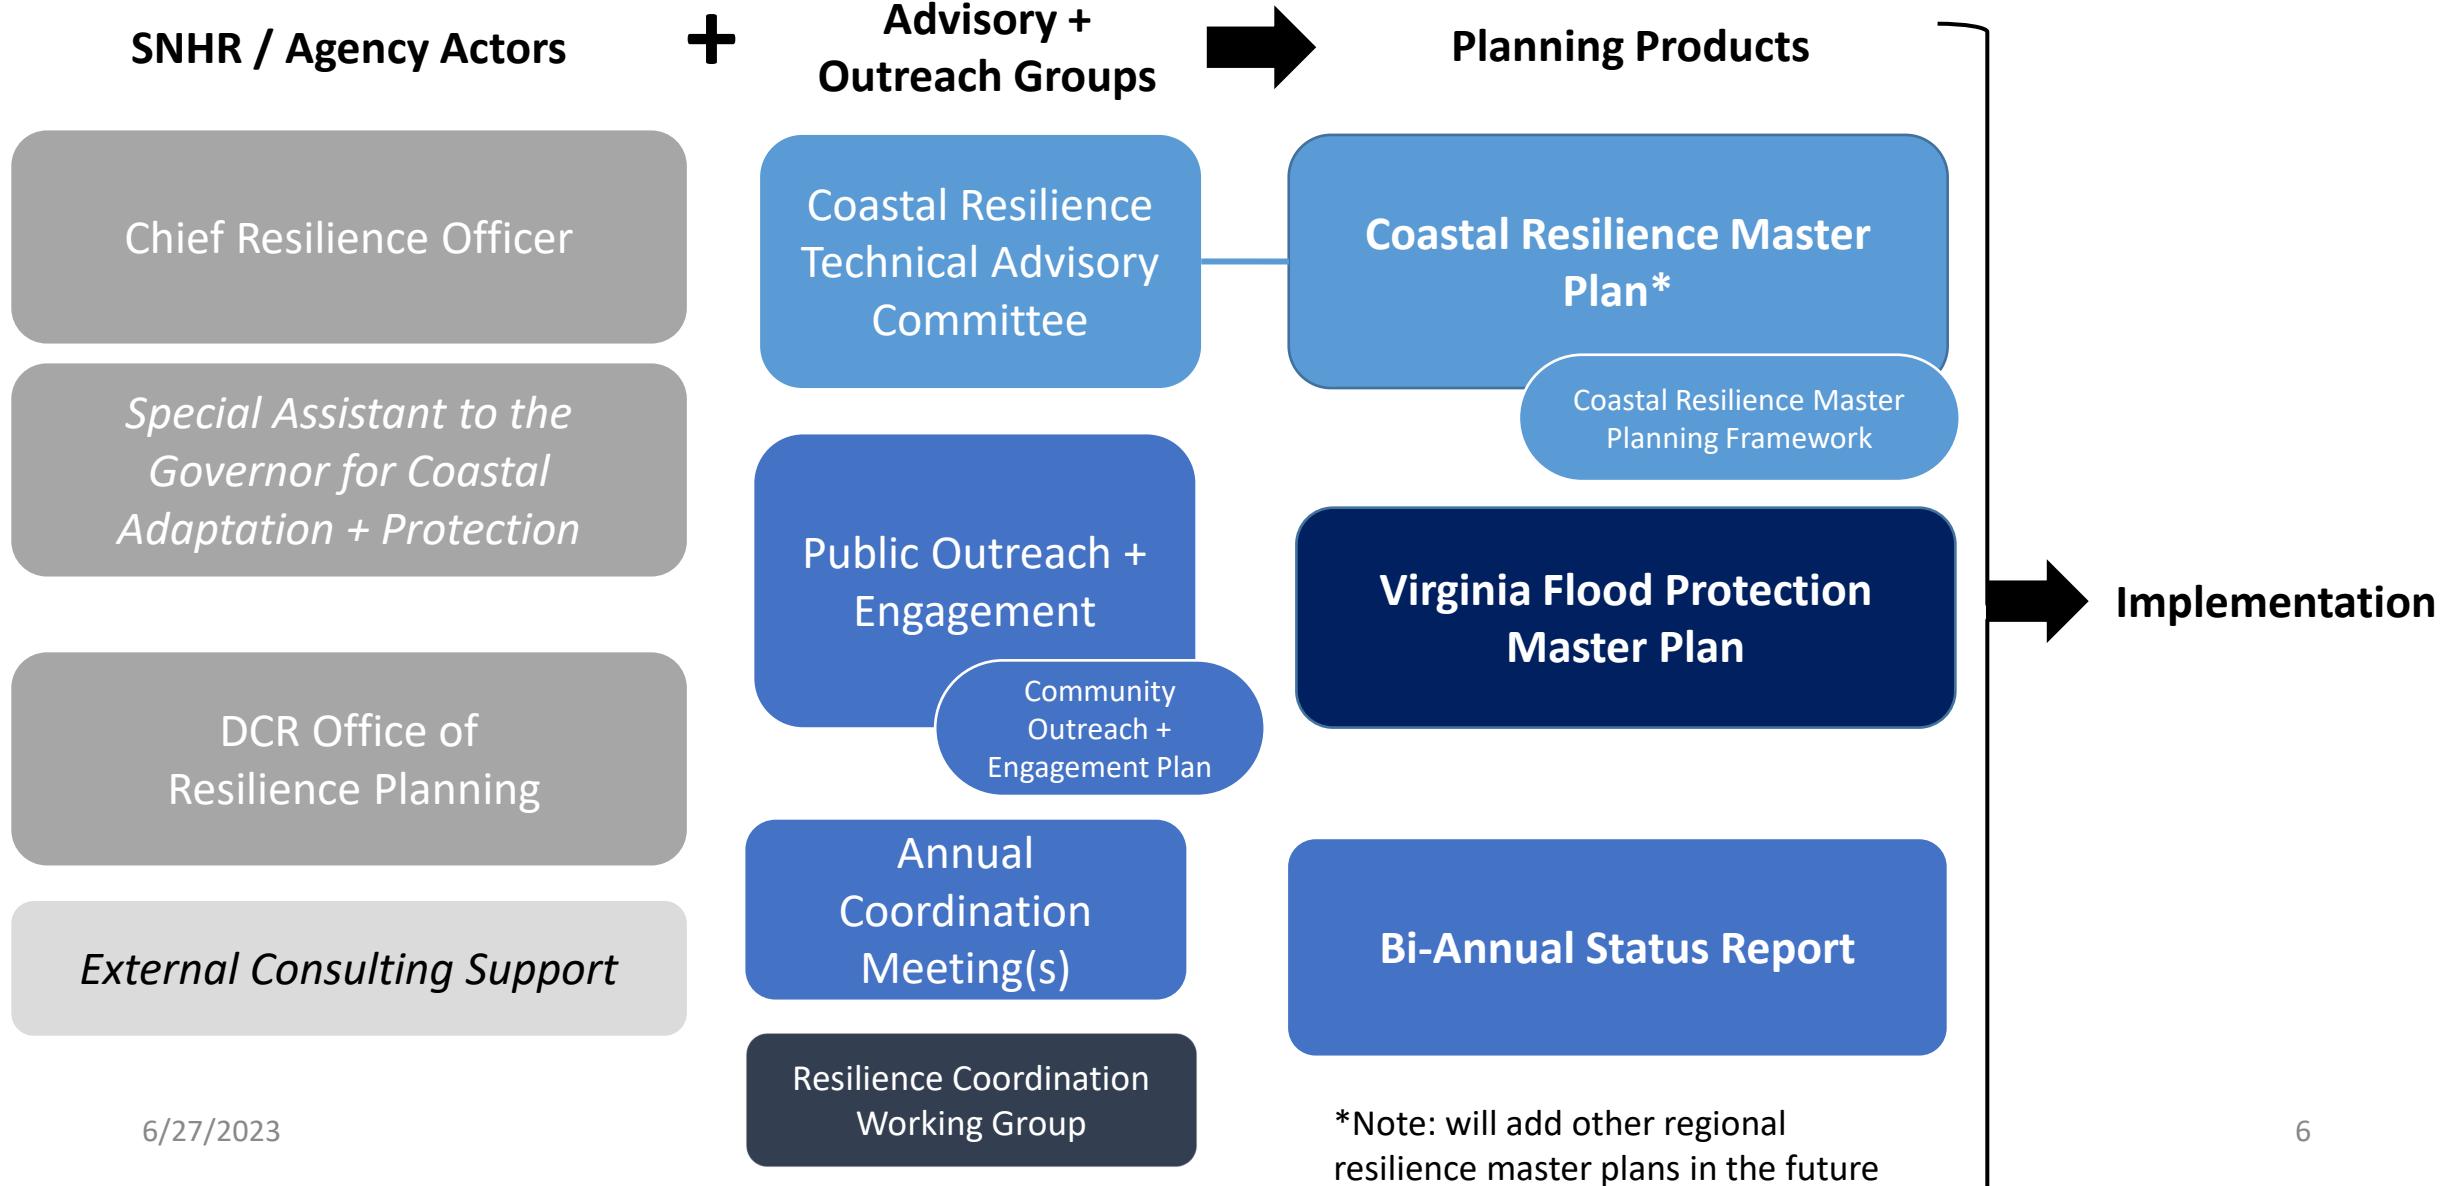

§ 10.1-602. Powers and Duties of the Department

§ 10.1-658. State interest in resilience and flood control

§ 10.1-659. Flood protection programs; coordination

§ 2.2-220.5. Chief Resilience Officer

# CRO and DCR's Resilience Planning Activities

# Looking Ahead: Multi-Level Plan Integration

State-Led, Informed by Localities

Virginia Flood Protection Master Plan  
**Commonwealth**

DCR leads and administers the planning process with state agencies and other stakeholders to focus on statewide risk and state policy action informed by regional master plans.

Locality-Led, Informed by State

Coastal Resilience Master Plan  
(and other Regional Resilience Master Plans)  
**Regional**

DCR leads and administers a planning process with groups of PDCs to translate contents of PDC and/or local plans into prioritized regional actions and needs for state support.

Regional Hazard Mitigation Plans or Resilience Plans  
**PDCs**

PDCs and/or localities - cognizant of local conditions, capacities, and priorities - develop detailed flood resilience master plans with support from CFPF and/or incorporate flood resilience in hazard mitigation plans with support from VDEM/FEMA or other local plans (i.e. Comprehensive Plan).

Hazard Mitigation Plans, Resilience Plans, Comp Plans  
**Localities**

# Engaging Stakeholders in Planning

## Community Outreach and Engagement Plan

6/27/2023

### ***Draft Engagement Guiding Principles***

- Whole Community
- Transparency
- Opportunity
- Tailored Approaches

### ***Draft Engagement Goals***

1. Collaborate with existing flood resilience planning outreach and engagement efforts.
2. Seek out the participation of affected and vulnerable communities.
3. Provide access to information and opportunity for participation.
4. Incorporate the views and perspectives of affected communities into decision-making.

# Inter-Agency Coordination

State agencies can help us to...

- Develop and implement a cohesive vision and strategy to build flood resilience
- Establish metrics to monitor and evaluate progress
- Identify critical infrastructure at risk of flooding, and projects, policies, or programs to mitigate risk
- Identify program and capacity needs to build resilience through state agencies
- Participate in annual coordination meetings and other coordination activities to share knowledge and align flood resilience plans, funding, and activities

## Inter-Governmental Coordination

Local and regional governments can help us to...

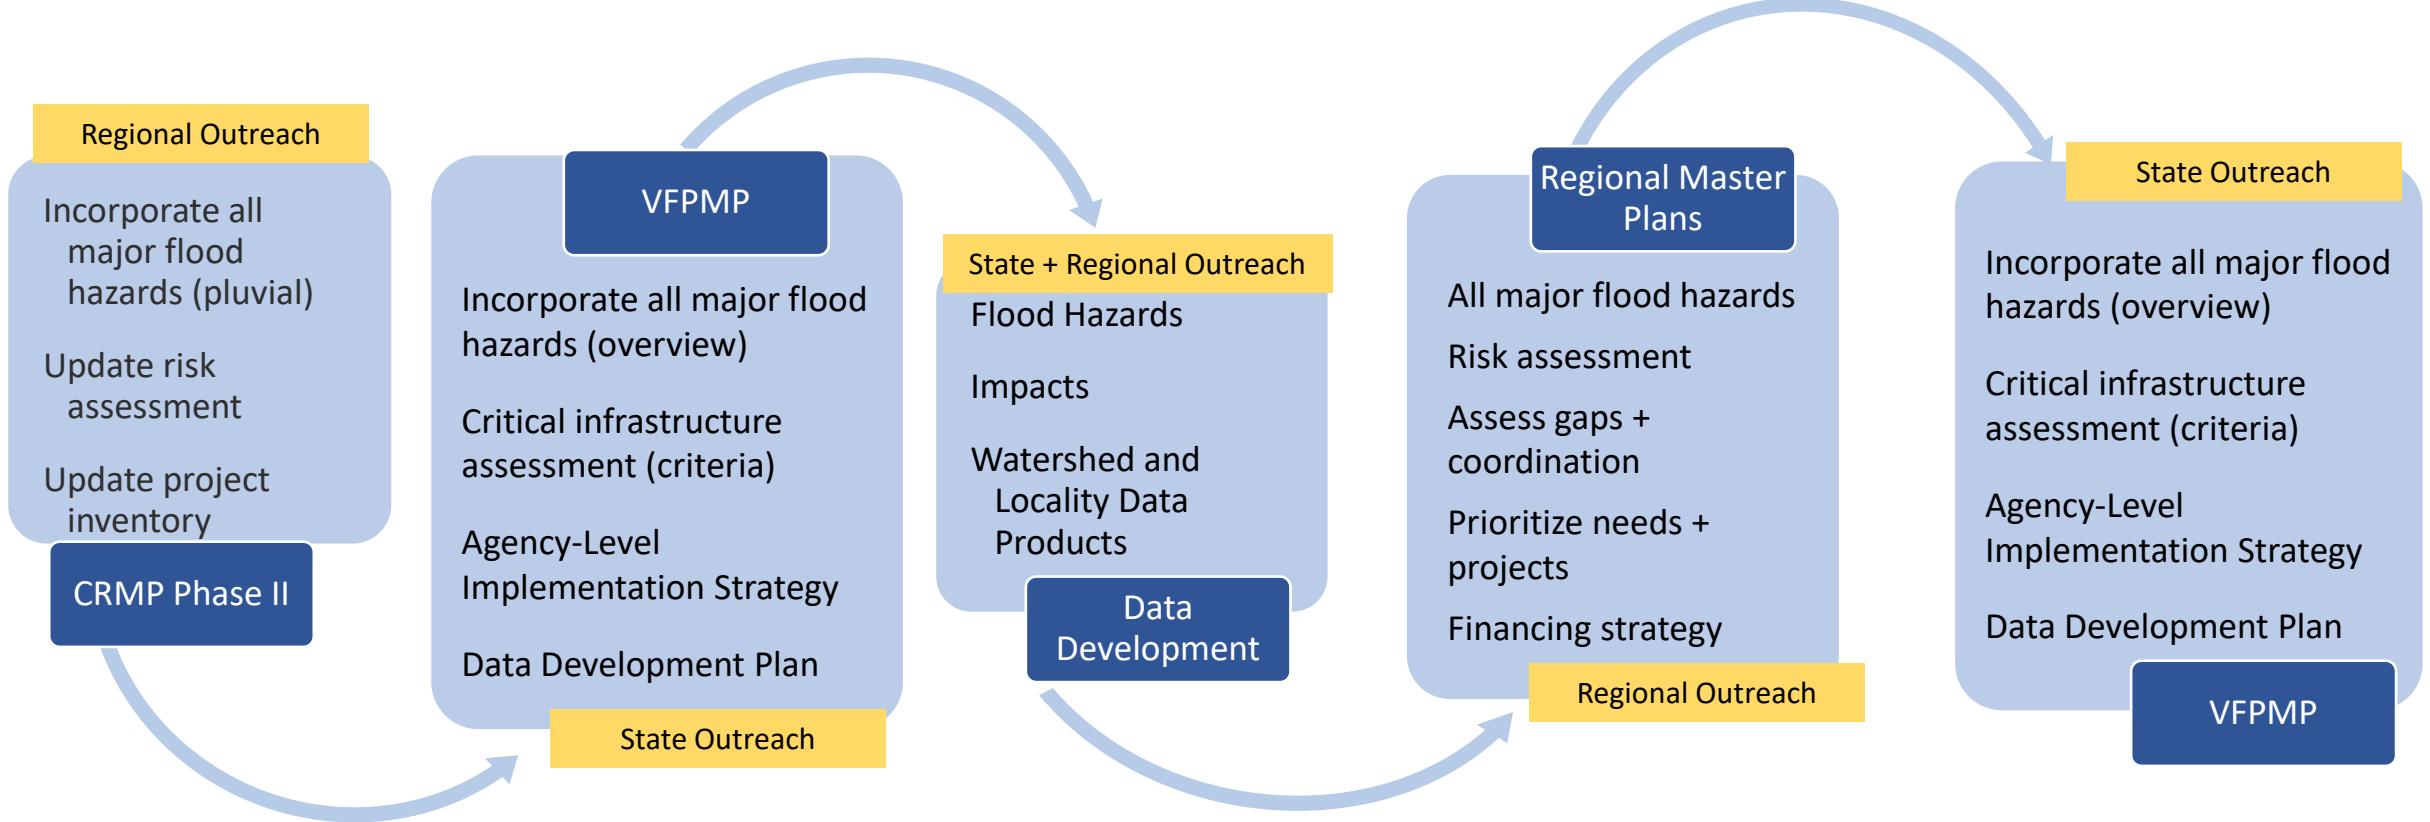

- Develop and implement Regional Resilience Master Plans
- Understand the different challenges and opportunities within regions
- Prioritize place-based resilience actions
- Participate in stakeholder meetings and other coordination activities to share knowledge and align flood resilience plans, funding, and activities

# Coastal Resilience Master Plan

## Overview and Updates

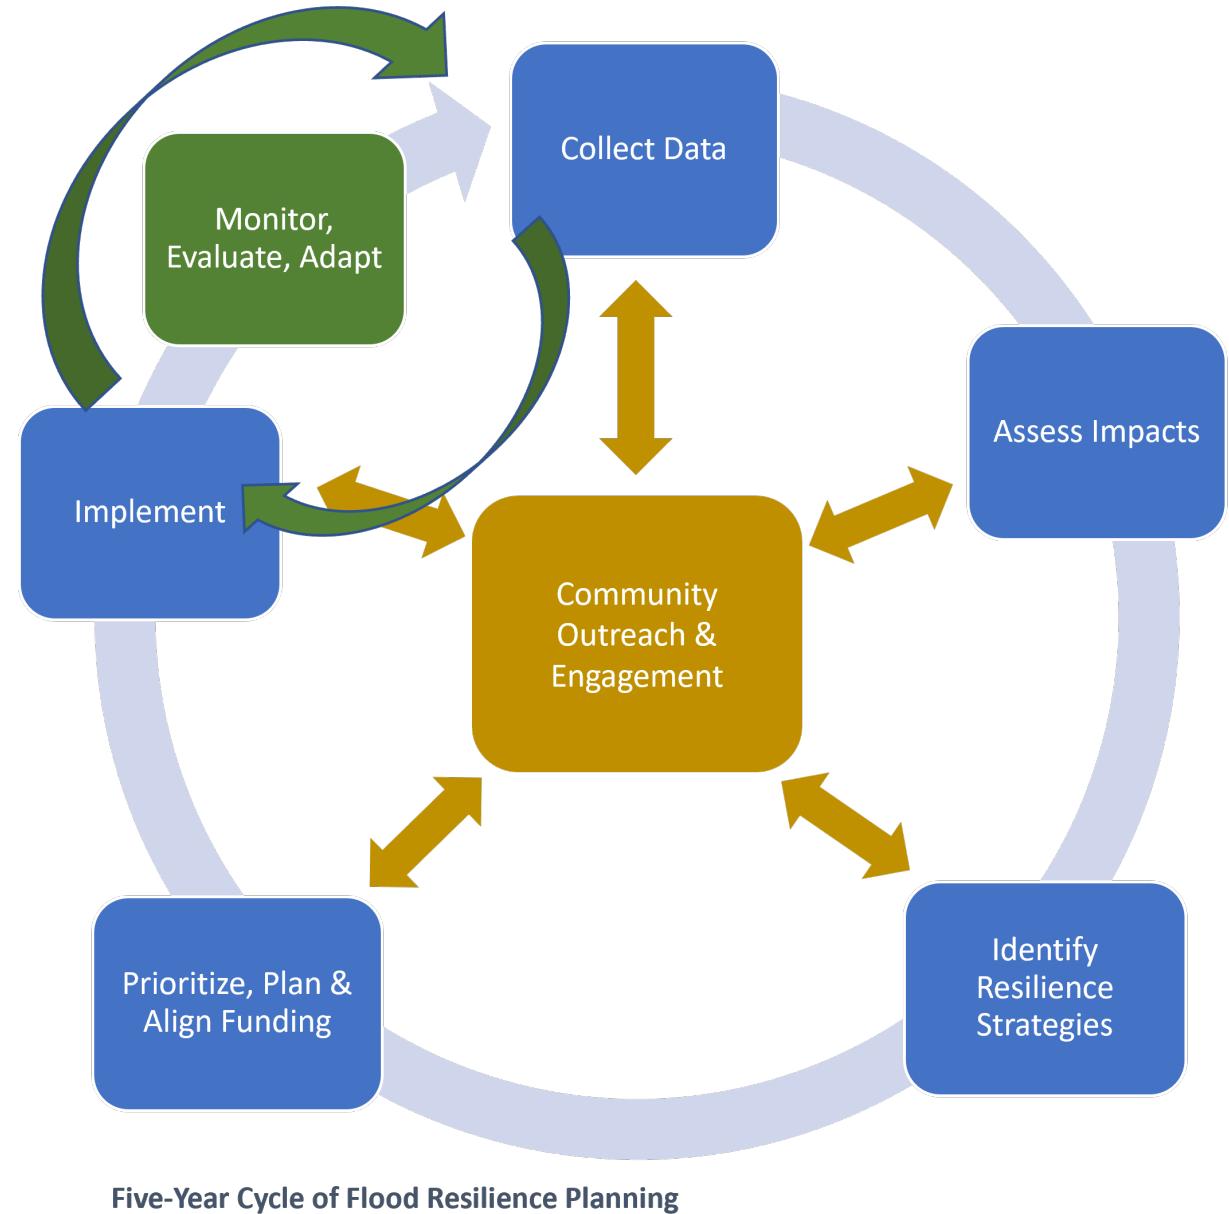

**An adaptative management approach will provide improved flexibility.**

# Each Plan has a....

- Objective
- Process
- Audience
- Stakeholders
- Decision-Maker(s)
- End-Users

# CRMP Phase II - Overview

The Phase II plan will be delivered by December 2024.

This planning process will result in two major deliverables:

- 1) an updated Coastal Resilience Web Explorer
- 2) a PDF Document Plan

**The key components of these two deliverables are:**

- 1) Flood Hazard Exposure Model
- 2) Flood Hazard Risk Assessment
- 3) Planned Resilience Actions
- 4) Financial Need for Flood Resilience
- 5) TAC Subcommittee Recommendations

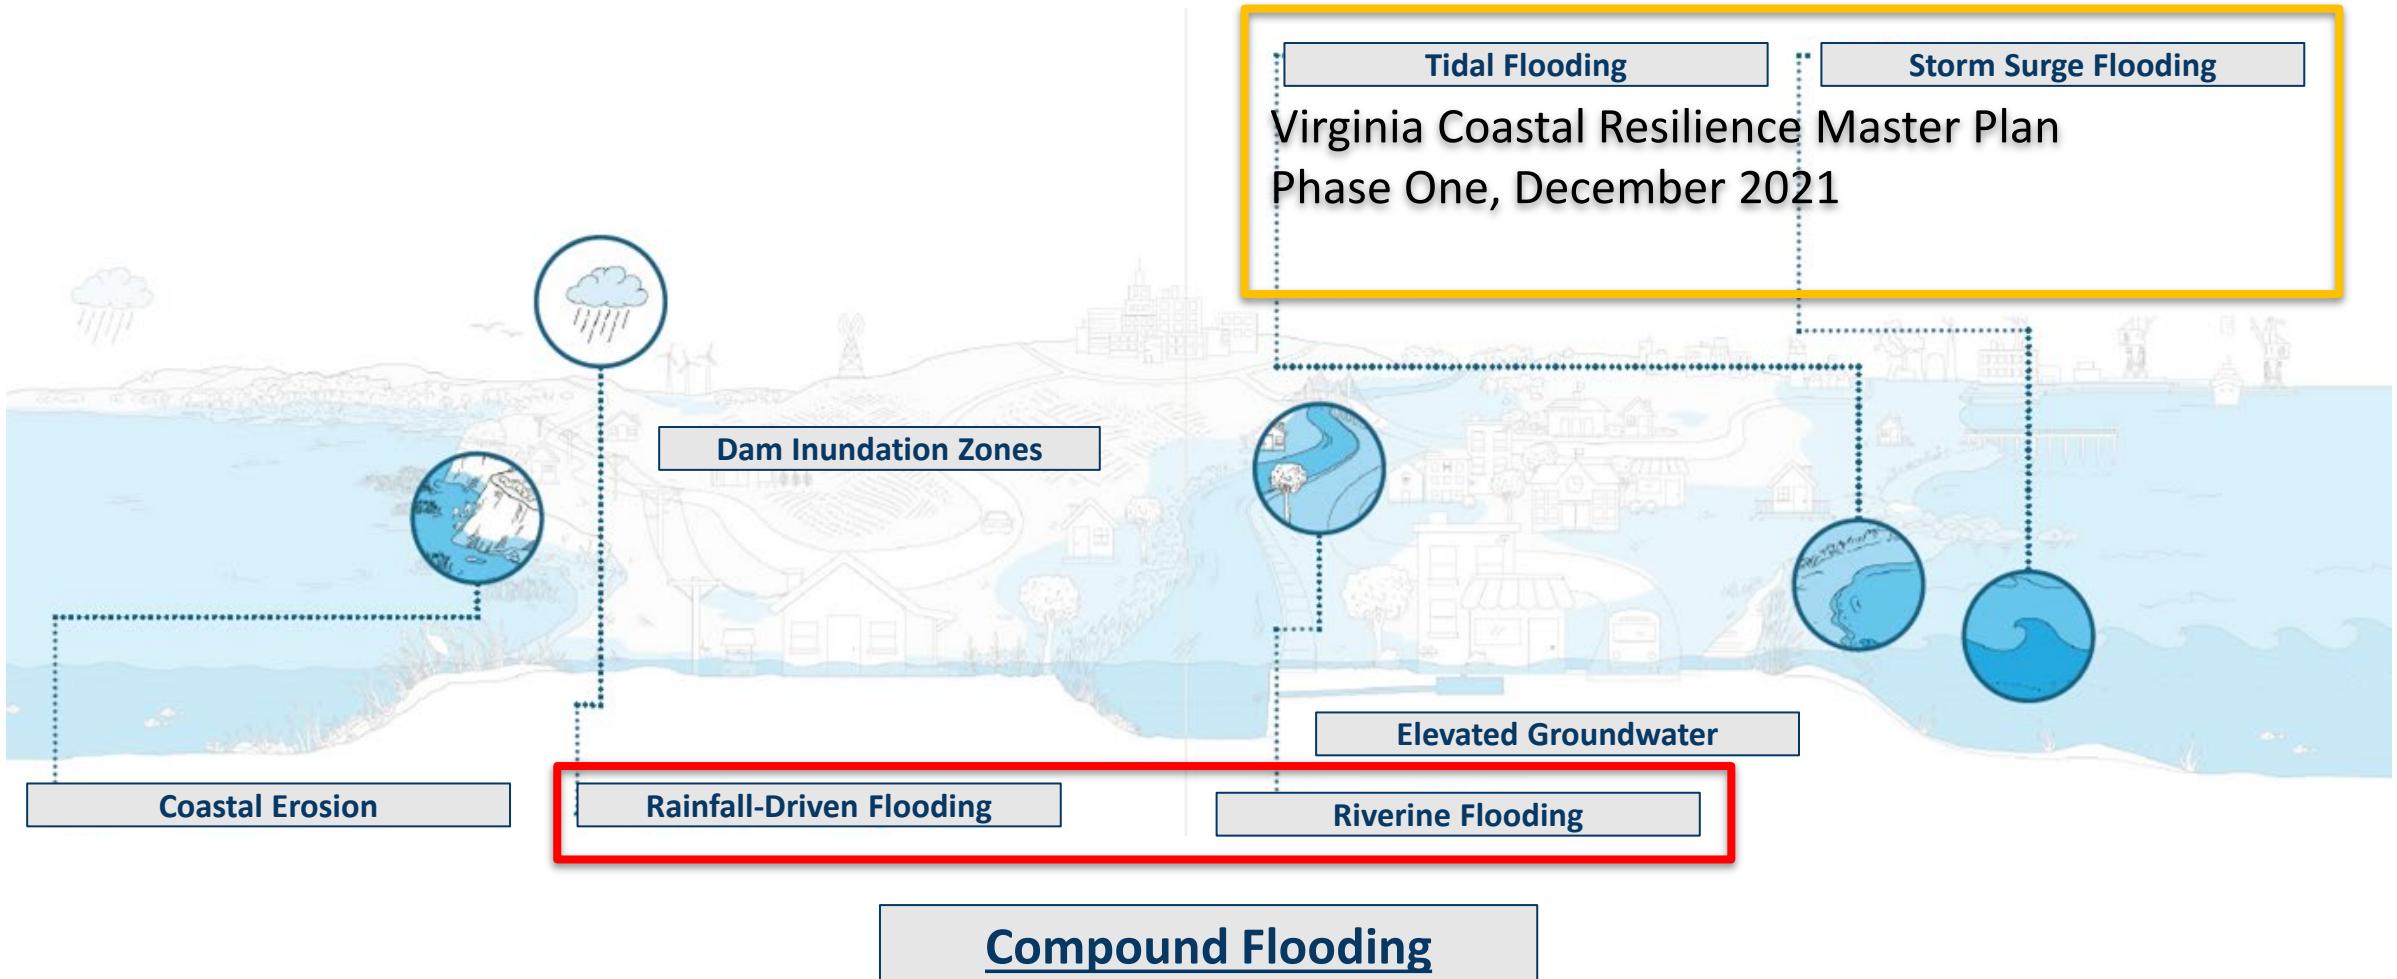

Outreach and engagement will be utilized throughout the plan's development to collect feedback on the content and direction of these key components.

The map displays the Eastern coast of North America, focusing on the Chesapeake Bay region. It shows state boundaries for New Jersey, Delaware, Maryland, Virginia, and North Carolina. Specific locations labeled include Atlantic City, Dover, Baltimore, Washington, Richmond, Virginia Beach, Lynchburg, Roanoke, Winston-Salem, Durham, Raleigh, and Greenville. A large area of the map, particularly around the Chesapeake Bay, is shaded in yellow and green, representing the distribution of coastal resilience projects. A legend in the top left corner of the map interface shows a yellow square for 'Selected' features and a green square for 'All' features.

# Funding Coastal Resilience

VA Funding for Projects (Features: 96, Selected: 0)

...

Name	Administering Office	Funding Source	Funding Type	Purpose
Addressing the Impacts of Multiple Stressors on Shellfish Aquaculture Through Research/Industry Partnerships	National Oceanic and Atmospheric Administration (NOAA) Oceanic and Atmospheric Research	NOAA	Federal	Supports: establishing, continuing, and/or expanding collaboration between researchers and shellfish growers in order to study how acidification and at least one other environmental stressor affects the U.S. shellfish aquaculture industry. Project priorities of this funding opportunity are to (1) build or strengthen relationships between the shellfish aquaculture industry and aquaculture research community (including university, industry, private sector, tribal, state, and/or federal scientists representing perspectives), (2) develop scientific knowledge on the impact of ocean and coastal acidification in combination with other stressors on shellfish aquaculture, and (3) create data products, tools, technologies, management practices, or other deliverables that are applicable to building resilience within the shellfish aquaculture sector.
Building Resilience Against Climate Effects: Implementing and Evaluating Adaptation Strategies that Protect and Promote Human Health	National Center for Environmental Health	CDC	Federal	Supports: the building and enhancement of the resilience of U.S. cities and states to the health impacts of climate change through overarching strategies. These strategies include 1) collaboration with stakeholders to create a Climate Impact Compendium on local climate projections, health effects, social determinants of health, and current adaptive capacity; 2) implementation of adaptation actions that address the threats identified in the Compendium; and 3) use and dissemination of evaluations to improve adaptation actions and enhance understanding of effective climate resilience adaptations in public health and related fields.
Bureau of Indian Affairs (BIA) Tribal Climate Resilience Program	Department of Interior, Bureau of Indian Affairs (BIA), Trust Services, Tribal Climate Resilience Program	BIA	Federal	Supports: tribal resilience and ocean and coastal management and planning. The Tribal Climate Resilience Program supports tribes to prepare for climate change impacts on tribal trust resources, economies, infrastructure, and human health and safety. Available Funding: - Adaptation planning - Ocean and Coastal Management Planning - Capacity Building - Relocation, Migration, or Protect-in-Place Planning - Internships and Youth Engagement

Ver 1.0

# Background

## Coastal Resilience Web Explorer

Allows users to interact with products of the Coastal Resilience Master Plan

Includes maps and other visualization tools, data viewers and downloads, and links to external resources

### Features:

- Projects and Initiatives
- Funding Opportunities

Visit online: [dcr.virginia.gov/crmp/cr-web-explorer](https://dcr.virginia.gov/crmp/cr-web-explorer)

The screenshot shows the homepage of the Virginia Coastal Resilience Web Explorer. At the top, there's a navigation bar with tabs for "Introduction" (which is highlighted in blue), "Hazards", "Impacts", and "Community Context". Below the navigation is a large banner image of a coastal town with houses and wetlands. Overlaid on the banner is the title "Toward a Resilient and Thriving Coast" and a subtitle: "From our growing cities to our migrating coastal wetlands, Virginia's coast faces a new reality." At the bottom of the page, there's a "Disclaimer" section with the text: "All data products for the Coastal Resilience Master Plan are being provided herein with the expressed understanding that the Virginia".

# Background

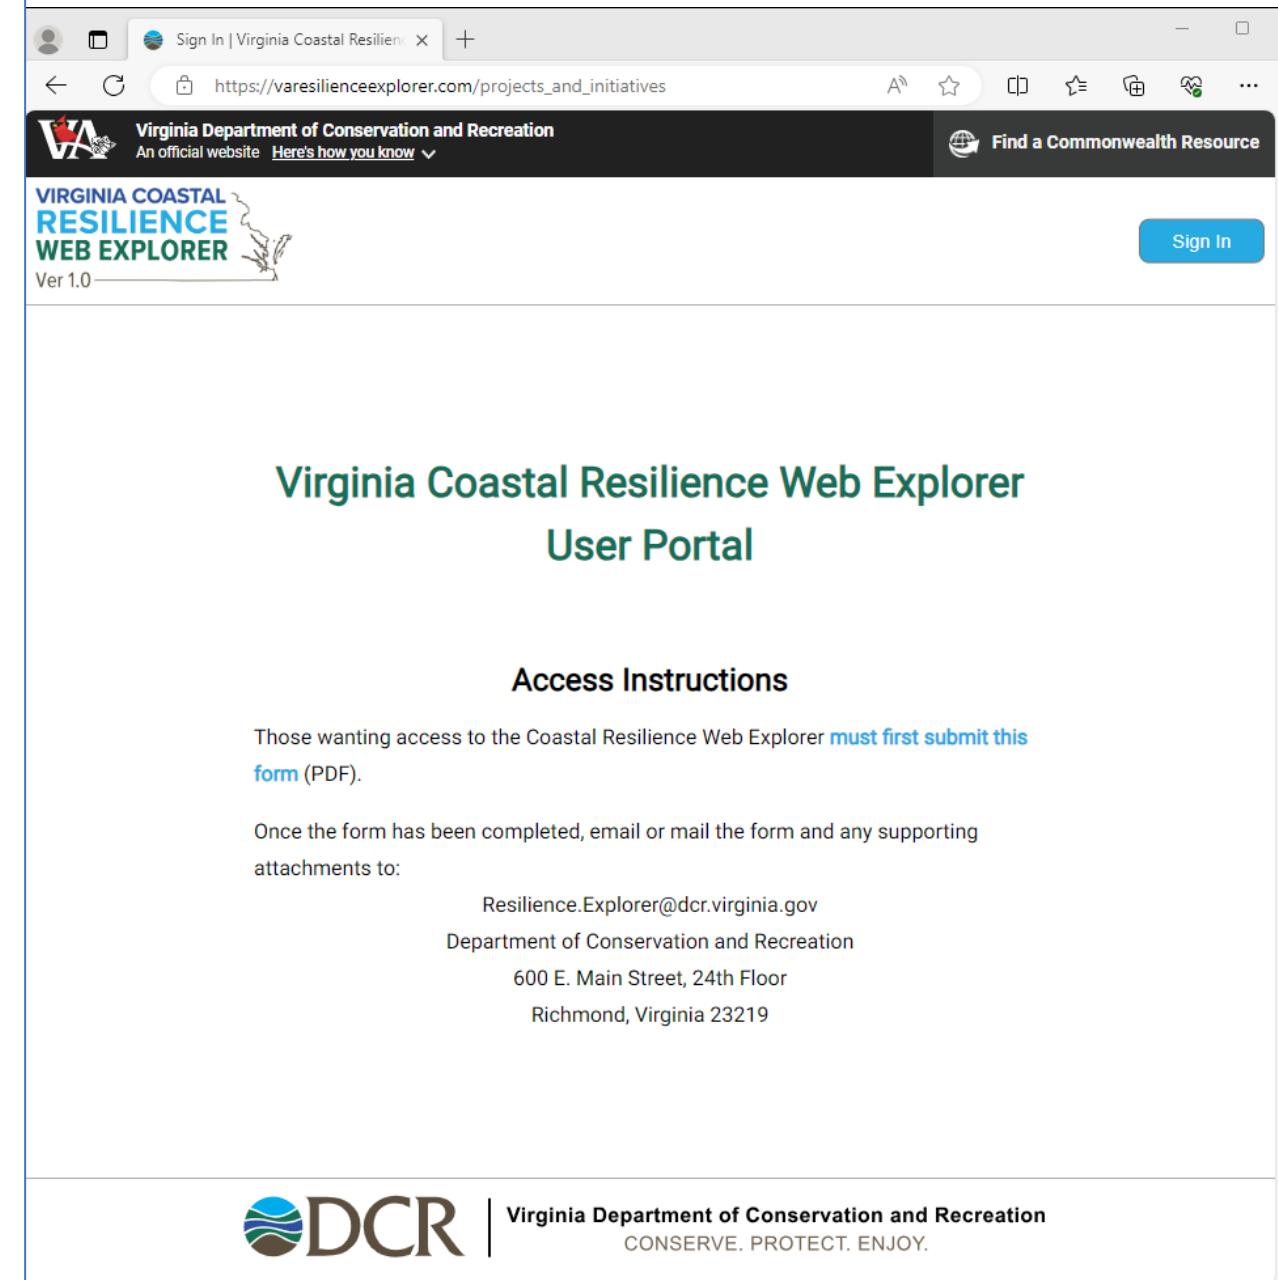

## User Portal for the Web Explorer

New online platform connected to the Coastal Resilience Web Explorer

Provides continuous access for coastal resilience practitioners to submit and edit Initiatives, Projects, and Funding Opportunities that appear in the portal.

Once approved by DCR for completeness, submitted entries will appear on the web explorer.

Visit online: [varesilenceexplorer.com](https://varesilienceexplorer.com)

The screenshot shows a web browser window for the "Virginia Coastal Resilience Web Explorer". The URL is https://varesilenceexplorer.com/projects\_and\_initiatives. The page header includes the Virginia Department of Conservation and Recreation logo, a "Sign In" button, and a "Find a Commonwealth Resource" link. The main content area has a blue header with the text "VIRGINIA COASTAL RESILIENCE WEB EXPLORER" and "Ver 1.0". Below this is a large, empty white space intended for displaying data. The footer contains the DCR logo and the text "Virginia Department of Conservation and Recreation CONSERVE. PROTECT. ENJOY.".

### Virginia Coastal Resilience Web Explorer User Portal

#### Access Instructions

Those wanting access to the Coastal Resilience Web Explorer [must first submit this form \(PDF\)](#).

Once the form has been completed, email or mail the form and any supporting attachments to:

Resilience.Explorer@dcr.virginia.gov  
Department of Conservation and Recreation  
600 E. Main Street, 24th Floor  
Richmond, Virginia 23219

# How will the projects and initiatives submissions be used?

## Coastal Resilience Master Plan, Phase II

- Only those projects and initiatives submitted to the User Portal will be considered in the Coastal Resilience Master Plan, Phase II.
  - The submission deadline for inclusion in the plan has not yet been established but will not occur prior to the end of Q1 2024.
  - DCR will publish this deadline via its newsletter, website, and emails to PDCs once established.

## *Other benefits to appearing in the explorer may include...*

- Automatic matching of projects and initiatives to potential funding sources also appearing in the web explorer.
- Increased visibility with regional, state, and federal actors for a locality's resilience needs.
- Means of communicating a complete pipeline of a locality's or PDC's resilience initiatives and projects to the public.
- Potential to connect complementary projects and initiatives to multiply outcomes.

# How will the funding opportunities be used?

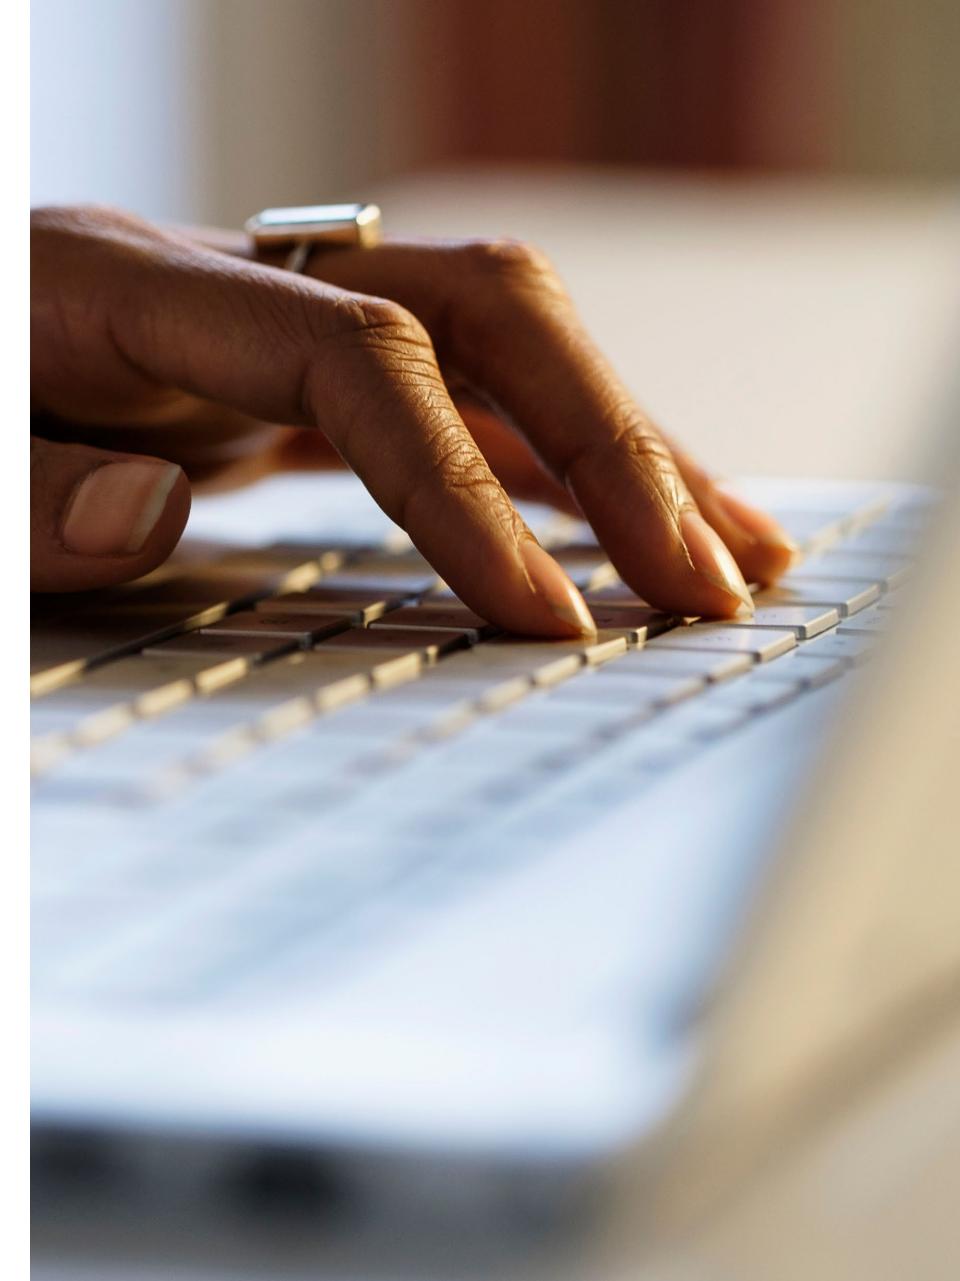

- Detailed information about a wide variety of funding opportunities submitted to the portal will remain available to the public via the **Coastal Resilience Web Explorer**.
- The Web Explorer will automatically match submitted projects and initiatives with funding opportunities submitted to the portal to suggest opportunities based on likelihood of eligibility.
- This funding information may assist local governments and other stakeholders interested in conducting projects and initiatives to **identify opportunities to gain access to needed financial support**.

# Getting Access

## Setting up your User Portal account

- New users must submit a completed User Access Form (PDF) to DCR ([resilience.explorer@dcr.virginia.gov](mailto:resilience.explorer@dcr.virginia.gov)).
- Forms can be accessed via DCR's website or the user portal website.
  - [dcr.virginia.gov/crmp/cr-web-explorer](http://dcr.virginia.gov/crmp/cr-web-explorer)
  - [varesilenceexplorer.com](http://varesilienceexplorer.com)
- Accounts are specific to an individual, not to an organization.
- Users can only add and edit projects for which they are the owner, or for which they have written approval from the owner's organization.

# Projects and Initiatives

## Creating a New Project or Initiative

- Users logged into the Portal will automatically see the “Projects and Initiatives” page, with any entries they have access to edit in view.
- To create a new project, users can click either “New Project” for a blank template, or “Copy Existing...” to use an existing project’s details as a starting point.

The screenshot shows the Virginia Coastal Resilience Web Explorer interface. At the top, there is a logo for "VIRGINIA COASTAL RESILIENCE WEB EXPLORER" Ver 1.0, a "FAQ" link, and a "Sign Out" button. Below the header, there are navigation tabs: "Projects and Initiatives" (which is selected), "Funding Opportunities", "My Profile", and "Admin". A blue arrow points from the "New Project" button in the top right corner down to the "New Project" button in the header of the "Projects and Initiatives Summary" table. The "Projects and Initiatives Summary" table has columns for Name, Category, Phase, Owner, Submitter, Submission Status, and Submission Date. It lists several projects, such as "18th Street Drainage Improvements" and "Aberdeen Gardens Drainage Improvements". At the bottom of the table, there is a note: "Click to select or double click to select and open the project or initiative details". At the very bottom, there are navigation icons for back, forward, and search, along with links for "Page 1 of 132", "Go to page: 1", "Show 5", "View All", and "Reset Filters".

Name	Category	Phase	Owner	Submitter	Submission Status	Submission Date
18th Street Drainage Improvements	Project	Construction/Implementation	Chesapeake	Crystal Bloom	Approved	12/07/2021
1. Crow's Nest Peninsula and Estuary Conservation	Project	Proposed	Northern Virginia Conservation Trust	Rentz Hilyer	Approved	12/07/2021
2019 FMA	Project	Programmed	Gloucester County	Anne Payne	Approved	12/07/2021
5th Street Improvements	Project	Proposed	Hampton	Scott Smith	Approved	12/07/2021
Aberdeen Gardens Drainage Improvements	Project	Proposed	Hampton	Scott Smith	Approved	12/07/2021

# Projects and Initiatives

## Creating a New Project or Initiative

- This will take you to a new page at which to enter all the details, which you can do by clicking the “Edit” button.
- Submit as much detail as you’d like, taking care to complete all required fields indicated with an asterisk.

The screenshot shows the 'Virginia Coastal Resilience Web Explorer' interface. At the top, there's a logo for 'VIRGINIA COASTAL RESILIENCE WEB EXPLORER' with 'Ver 1.0' below it. On the right side of the header are links for 'FAQ', 'Sign Out', and a 'Print to PDF' button. Below the header, there are navigation tabs: 'Projects and Initiatives' (which is active), 'Funding Opportunities', 'My Profile', and 'Admin'. A breadcrumb trail indicates the current location: 'Home > Projects and Initiatives > Project Details'. The main content area displays a form for 'Project Details'. It includes fields for 'ID' (with a dash), 'Name' (with a dash), 'Location' (with a dash), 'Owner' (with a dash), 'Location CID' (with a dash), 'Submitter' (with a dash), 'Submitter Email' (with a dash), 'Submission Status' (with a dash), and 'Submission Date' (with a dash). Below the form, there are buttons for 'Change Submission Status', 'Edit' (which is highlighted with a blue box), 'Save', and 'Cancel'. To the left of the form, there's a sidebar with links: 'Top of Page', 'General Information', 'Optional Information', 'Map', and 'Contact'. The 'General Information' link is currently selected. A callout box on the right side of the form contains the text: 'Once clicked, the “Edit” button becomes unavailable and the fields in the form become editable.'

# Projects and Initiatives

## Editing an Existing Project or Initiative

- From the User Portal Landing page, users can edit existing projects and initiatives to which they have access by double clicking on any row in the Projects and Initiatives Summary list.
- From there, you will be able to make any needed edits to the fields and “Save” to resubmit for DCR approval.

# Projects and Initiatives

## Indicating the Geographic Location of a Project

- Save project information to enable mapping feature
- Mapping Options
  - Draw/Edit on Map
  - Select predefined location
  - Upload a zipped polygon shapefile

# Funding Opportunities

## Creating or Editing

- Click the “Funding Opportunities” tab at the top of the page to access.
- Your automatic view will be any opportunities which you have submitted.
- Click “View All” to see additional opportunities which you have access to edit.
- Functionality is basically the same as Projects and Initiatives to create a new opportunity or edit an existing opportunity.

# Submission Status

- Users must manually change and save a change in submission status to advance an entry for DCR review and publication.
- Once approved, users will have the option to move an entry back to Revisions Needed for edits, Archive an entry that has concluded, or Delete an entry that was created in error or is a duplicate.

The screenshot shows a software interface for managing submission status. At the top, there are buttons for 'Edit', 'Save' (highlighted in blue), and 'Cancel'. Below these are two dropdown menus labeled 'Change Submission Status'. The first dropdown is open, showing the option 'Development'. The second dropdown is also open, showing options: 'Approved', '12/07/2021', 'Change Submission Status' (highlighted in red), 'Revisions Required', 'Archive Request', 'Delete Request', and 'Archived'. The 'Approved' and '12/07/2021' fields are displayed below the second dropdown.

## Viewing Details of Projects, Initiatives, Funding Opportunities

Introduction

Hazards

Impacts

Community Context

Projects and Initiatives

Funding Opportunities

The collected projects represented here provide an initial sample of the substantial resilience project needs within the Commonwealth. Projects were collected through a survey call issued to localities and PDCs. Future CRMP efforts will seek to extend the coverage of this database while moving to a more comprehensive capture of needs across the Commonwealth.

# Downloading Reports

## Projects and Initiatives, Funding Opportunities

### Two types of reports:

1. "List"
2. "Submission Status Report"

Both download to your desktop  
an .x/sx file.

**List** provides all submitted  
details of entries as they  
currently exist in the portal.

**Submission Status Report**  
provides the most recent status  
change for each entry, with  
limited additional details.

The screenshot shows the 'Funding Opportunities' section of the Virginia Coastal Resilience Web Explorer. At the top, there's a logo for 'VIRGINIA COASTAL RESILIENCE WEB EXPLORER Ver 1.0'. The navigation bar includes links for 'Projects and Initiatives', 'Funding Opportunities' (which is highlighted in orange), 'My Profile', and 'Admin'. Below the navigation is a breadcrumb trail: Home > Funding Opportunities. The main content area is titled 'Funding Opportunities Summary' and contains a table with six columns: Name, Status, Full Proposal Deadline, Submitter, Submission Status, and Submission Date. The table lists five funding opportunities, all of which are currently 'Inactive'. The last entry is the 'Chesapeake Bay Fisheries Research Program'. At the bottom of the table, there's a note: 'Click to select or double click to select and open the funding opportunity details'. Below the table are navigation icons (back, forward, search) and pagination controls: 'Page 1 of 20 | Go to page: 1 Show 5'. To the right are buttons for 'View All' and 'Reset Filters'. A large blue arrow points from the text 'List provides all submitted details...' towards the screenshot.

Funding Opportunities List Submission Status Report

# Downloading Reports

## Projects and Initiatives, Funding Opportunities

- From the User Portal Landing page, users can download projects and initiatives reports.
- Projects and Initiatives List: Report will include all "Approved" projects and initiatives and all projects and initiatives to which they have access.
  - \* A zipped polygon shapefile download of all "Approved" projects and initiatives is pending.
- Submission Status Report: Report will include the submission status for all projects and initiatives to which they have access

The screenshot shows the 'VIRGINIA COASTAL RESILIENCE WEB EXPLORER' interface, Version 1.0. The top navigation bar includes links for 'FAQ' and 'Sign Out'. Below the header, there are tabs for 'Projects and Initiatives', 'Funding Opportunities', 'My Profile', and 'Admin'. The current view is 'Projects and Initiatives', indicated by a breadcrumb trail: Home > Projects and Initiatives. The main content area displays a 'Projects and Initiatives Summary' table with the following data:

Name	Category	Phase	Owner	Submitter	Submission Status	Submission Date
Adjustment to Floodplain Ordinance/Restricting Development	Initiative	N/A	Ashland	Sarah Stewart	Manager Review	09/29/2023
Ancell St. & Commonwealth Project	Project	Proposed	Alexandria	Rebecca Murphy	Manager Review	09/29/2023
Application of Floodplain Ordinance to potentially developed Local Floodplains from Project ID #28	Initiative	N/A	Ashland	Sarah Stewart	Manager Review	09/29/2023
Bellefonte Dr. Project	Project	Proposed	Alexandria	Rebecca Murphy	Manager Review	09/29/2023
Belle Isle Shoreline Restoration	Project	Proposed	Richmond	Sarah Stewart	Manager Review	09/29/2023

Below the table, a note says: 'Click to select or double click to select and open the project or initiative details'. Navigation controls include arrows for page navigation, a page number 'Page 1 of 29', and a dropdown for 'Show 5'. At the bottom, there are buttons for 'View All' and 'Reset Filters'. A blue arrow points from the bottom left towards the 'Reports' section at the bottom of the page.
